ORDER GRANTING REQUEST TO AMEND AUTHORIZATION TO IMPORT LIQUEFIED NATURAL GAS FROM VARIOUS INTERNATIONAL SOURCES BY VESSEL TO ADD AUTHORIZATION TO IMPORT LIQUEFIED NATURAL GAS FROM CANADA BY TRUCK

DOE/HGEO ORDER NO. 5413-A

NOVEMBER 9, 2026

On April 16, 2026, the Hydrocarbons and Geothermal Energy Office[1] of the Department of Energy (DOE) issued DOE/HGEO Order No. 5413 (Docket No. 26-17-LNG), under section 3 of the Natural Gas Act (NGA).[2] That order granted Constellation LNG, LLC (Constellation LNG) authorization to import liquefied natural gas (LNG) from various international sources by vessel, up to a total volume equivalent to 100 billion cubic feet (Bcf) of natural gas, for a two-year term that began on May 15, 2026, and extends through May 14, 2028.[3]

On October 13, 2026, DOE received a request from Constellation LNG asking DOE to authorize the import of LNG from Canada by truck, in addition to the existing authority in Order No. 5413.[4] Constellation LNG sought no other changes to its authorization[5] but requested that its amended authorization take effect on the date of issuance.[6]

DOE finds that Constellation LNG's request to add imports of LNG from Canada by truck to the specified authorization is consistent with the public interest, pursuant to NGA section 3.

ORDER

Pursuant to section 3 of the Natural Gas Act, it is ordered that:

A. DOE/HGEO Order No. 5413, subparagraph 1 of Ordering Paragraph A is amended in its entirety to state as follows:

> Import LNG from various international sources by vessel at any LNG import terminal in the United States and its territories, and to import LNG from Canada by truck at any LNG receiving facility in the United States and its territories, up to a combined total volume equivalent to 100 Bcf of natural gas.

B. All other obligations, rights, and responsibilities established by DOE/HGEO Order No. 5413 remain in effect.

Issued in Washington, D.C., on November 9, 2026.
