|---------|-------------|------------|---------|----------|
|         |             |            |         |          |

Project Title: Mesofluidic System for Automated Proteins Enrichment

Location: Sandia National Laboratories - California

| <u>Pro</u> | <u>posed</u> | Action | or | <u>Pro</u> | ject | Descri | ption: |
|------------|--------------|--------|----|------------|------|--------|--------|
|            |              |        |    |            |      |        |        |

American Recovery and Reinvestment Act:

The objective of this collaboration with the University of Texas Medical Branch is to develop an on-line prototype for automated purification and concentration of proteins involved in innate response using aptamers and FLAG-based affinity matrices. Activities would include development of an initial prototype; modification of existing batch-mode protocols to on-line processing; delivery of the prototype to UTMB, training of UTMB users, and testing of the system at UTMB; and preparation of a final report.

| Facility Operations   | Site Characterization, Monitoring and General Research   |
|---|--|
| □ B1.1 - Rate increases < inflation (not power marketing)   | □ B3.1 - Site characterization/environmental monitoring □ B3.2 - Aviation activities for survey/monitoring/security □ B3.3 - Research related to conservation of fish and wildlife □ B3.4 - Transport packaging tests for radioactive/hazardous material □ B3.5 - Tank car tests □ B3.6 - Siting/construction/operation/decomm of facilities for R&D, conventional laboratory operations and pilot projects □ B3.7 - New infill exploratory, experimental oil/gas/geothermal construction/operation □ B3.8 - Outdoor ecological/environmental research in small area □ B3.9 - Certain CCT demonstration activities, emissions unchanged □ B3.10 - Siting/construction/operation/decommissioning of particle accelerators □ B3.11 - Outdoor tests, experiments on materials and equipment components, no source, special nuclear, or by-product materials □ B3.12 - Siting/construction/operation/decommission of microbiological or biomedical facilities □ B3.13 - Magnetic fusion experiments, no tritium fuel use |
| <ul> <li>         ☐ B1.16 - Removal of asbestos in accordance with regulations     </li> <li>         ☐ B1.17 - Removal of PCB items from aboveground structures     </li> </ul>  | Conservation, Fossil, and Renewable Energy Activities  |
| □ B1.18 - Water supply well const/oper, from existing field, no degradation □ B1.19 - Siting/construction/operation of microwave/radio communication tow □ B1.20 - Protect/restore/improve fish and wildlife habitat □ B1.21 - Noise abatement □ B1.22 - Building relocation to developed area/demolition/disposal □ B1.23 - Demolition/disposal of buildings, equipment, and structures □ B1.24 - Transfer, disposition, or acquisition of uncontaminated structures or equipment, environmental quality maintained □ B1.25 - Transfer, disposition, or acquisition of uncontaminated land for habitat preservation/wildlife management □ B1.26 - Siting/construction/operation/decommissioning of small water | changes, or air emission effects  B5.3 - Modification (not expansion)/abandonment of oil storage access/ brine injection/gas/geothermal wells; no site closure  B5.4 - Repair/replacement of pipeline sections within maintenance provisions of a Section 404 permit  B5.5 - Short crude oil/gas/steam/geothermal pipeline const/oper within a single industrial complex/existing right-of-way  B5.6 - Oil spill cleanup operations  |
| treatment facilities  | Environmental Restoration/Waste Management Activities  B6.1 - Cleanup actions: small-scale, short-term   |
| <ul> <li>□ B1.27 - Disconnection of utilities</li> <li>□ B1.28 - Placement of unused facilities in environmentally safe condition</li> <li>□ B1.29 - Small on-site const/demolition waste disposal facility const/oper</li> <li>□ B1.30 - Transfer/transportation actions, quantities incidental to amounts at receiving site</li> <li>□ B1.31 - Relocation/operation of machinery or equipment, similar use</li> <li>□ B1.32 - Traffic flow adjustments, existing roads.</li> </ul>  | □ B6.2 - Siting/construction/operation of temporary pilot-scale waste collection/treatment/stabilization/containment facilities □ B6.3 - Environmental control system improvements in existing structures, recycle/release/disposal within permitted facility □ B6.4 - Packaged hazardous waste storage facility const/oper/decom □ B6.5 - Const/oper/decom of on-site facility for characterizing/sorting or over packing previously packaged waste (not high-level or spent nuclear fuel; no unpacking)  |
| Safety and Health   | ☐ B6.6 - Modification of facility for storing, packaging, or repacking waste   |
| <ul> <li>B2.1 - Modifications to enhance workplace habitability</li> <li>B2.2 - Installation/improvement of building/equipment instrumentation</li> <li>B2.3 - Installation of equipment for personnel safety and health</li> <li>B2.4 - Equipment Qualifications Program</li> <li>B2.5 - Facility safety and environmental improvements, replacement or of facility components</li> <li>B2.6 - Packaging/transportation/storage of radioactive sources from public domain upon request</li> </ul>  | (not high-level or spent nuclear fuel)  B6.7 - Granting/denying petitions for allocation of commercial disposal capacity B6.8 - Minor operational changes to minimize waste or reuse materials B6.9 - Small-scale, temporary measures to reduce contaminated GW migration B6.10 - Siting/construction/operation/decommissioning of small upgraded or replacement waste storage facilities  Other  Specify category:  |

This action would not (1) violate applicable ES&H requirements, (2) require siting of waste Treatment, Storage, Disposal or Recovery facilities, (3) disturb hazardous substances (excluding naturally occurring petroleum and natural gas), thus producing uncontrolled or unpermitted releases, and (4) adversely affect environmentally sensitive resources. Furthermore, this action (1) would not present any extraordinary circumstances such that the action might have a significant impact upon the human environment, (2) is not connected to other actions with potentially significant impacts, and (3) is not related to other actions with cumulatively significant impacts. Therefore, the proposed action may be categorically excluded from further review.

Date Determined: 08/03/2011

NEPA Compliance Officer or Program Officer: LACY, SUSAN DOYLENE
