

MHF  LOGISTICAL SOLUTIONS

# TRANSLOAD FACILITIES OVERVIEW

July 25, 2007

**Engineered solutions for a complex world.**

## **INTRODUCING MHF LOGISTICAL SOLUTIONS.....**

MHF-LS is a leader in the packaging and transportation of radioactive and hazardous waste materials. We have shipped in excess of 12,000,000 tons of radioactive and hazardous waste over the past 12 years.

Our vertically integrated products and asset-based services provide transportation via rail, truck and marine, plus cost-effective packaging and high-capacity equipment options, for all types of bulk solid, bulk liquid, packaged material and cargo. MHF-LS has more equipment dedicated to this type of work than any other company in the industry.

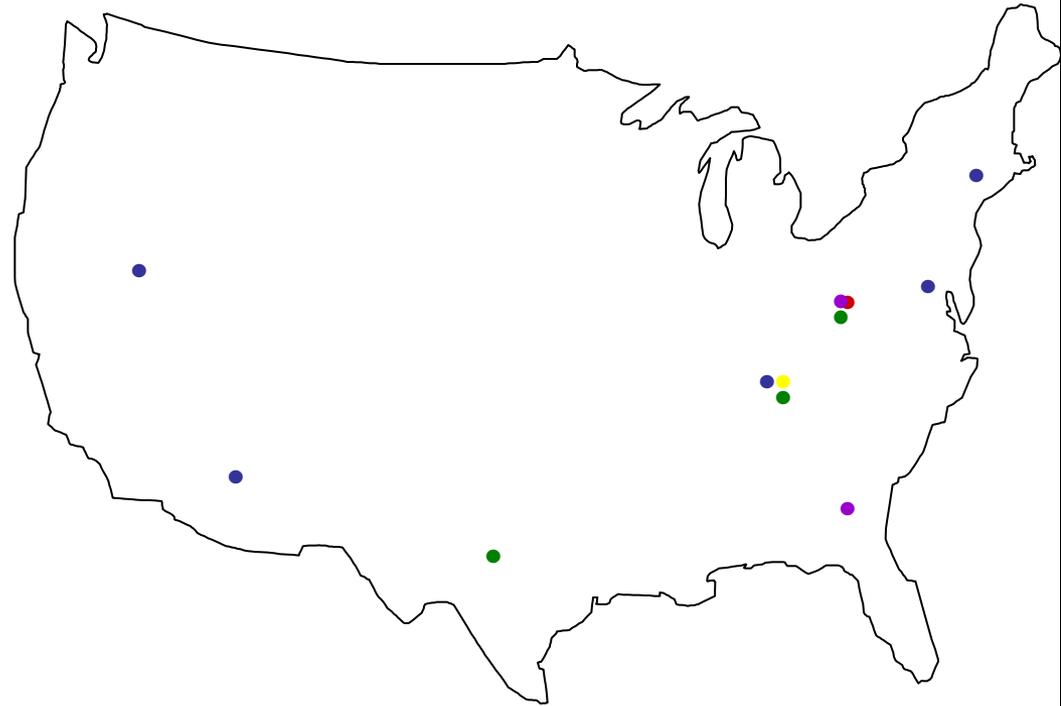

Clients include government agencies and companies which regulate and manage security sensitive cargo including radioactive materials, radioactive and hazardous wastes and precious metals.

Since 1997, MHF-LS has maintained a national network of transload facilities to provide seamless transload service and offers the industry's most experienced professionals, including Q Cleared personnel. MHF-LS has also maintained a positive FOCl determination for projects which require such clearance levels.

Engineered solutions for a complex world.
