**Subject:** Fwd: public comment on federal register

I oppose and protest electrical energy generated in America with the attendant pollution from that energy generation going to another country so the profiteers can make more money. I think that which is generated in America stays in America. we need all the energy we can get. we have transmission lines right now taking up open space all over America and destroying our open space to do that. if you keep sending our electricity out, that means more land destruction in America, more animals and birds dead, more trees logged. this all needs to be part of the picture and it is not when profiteer come in with money signs. I protest this extension. sell your electricity in America. this comment is for the public record. please acknowledge receipt. jean public

-----  
DEPARTMENT OF ENERGY

[OE Docket No. EA-145-E]

Application To Export Electric Energy; Powerex Corp.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

-----  
SUMMARY: Powerex Corp. (Powerex) has applied to renew its authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before December 4, 2013.

ADDRESSES: Comments, protests, or motions to intervene should be addressed to: Lamont Jackson, Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to [Lamont.Jackson@hq.doe.gov](mailto:Lamont.Jackson@hq.doe.gov)

[[Page 65979]]

[hq.doe.gov](http://hq.doe.gov), or by facsimile to 202-586-8008.

FOR FURTHER INFORMATION CONTACT: Lamont Jackson (Program Office) at 202-586-0808, or by email to [hq.doe.gov](mailto:hq.doe.gov)">Lamont.Jackson@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On February 19, 2009, DOE issued Order No. EA-145-D, which authorized Powerex to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. That authority expires on February 19, 2014. On August 29, 2013, Powerex filed an application with DOE for renewal of the export authority contained in Order No. EA-145-D for an additional five-year term.

In its application, Powerex states that it does not own any electric generating or transmission facilities, and it does not have a franchised service area. The electric energy that Powerex proposes to export to Mexico would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States and/or Canada. The existing international transmission facilities to be utilized by Powerex have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments on the Powerex application to export electric energy to Mexico should be clearly marked with OE Docket No. EA-145-E. An additional copy is to be provided directly to Ms. Karen McDonald, Powerex Corp., 666 Burrard Street, Suite 1300, Vancouver, British Columbia, Canada V6C 2X8 and Deana E. King, Bracewell and Giuliani LLP, 111 Congress Avenue, Suite 2300, Austin, TX 78701 and Tracey L. Bradley, Bracewell and Giuliani LLP, 2000 K Street NW., Suite 500, Washington, DC 20006. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at [hq.doe.gov](mailto:hq.doe.gov)">Angela.Troy@hq.doe.gov.

Issued in Washington, DC, on October 29, 2013.

Brian Mills,  
Director, Permitting and Siting, Office of Electricity Delivery and

Energy Reliability.
