Subject: Fwd: all energy made in America stays in America - too much pollution associated with energy generation

I OPPOSE SENDING ELECTRICITY GENERATED IN AMERICA TO ANY FOREIGN COUNTRY. WE HAVE THE POLLUTION FROM GENERATING THAT ENERGY THEREFORE WE NEED TO KEEP THE ENERGY HERE. LET CANADA GENERATE ITS OWN ELECTRICITY. THESE PROFITEERS WILL KILL US WITH POLLUTION AND THEN SELL IT TO A FOREIGNER TO MAKE MONEY FOR THEMSELVES WHICH I CONSIDER TO BE TRAITOROUS TO AMERICANS. KEEP AMERICAN ELECTRICITY IN AMERICA FOR AMERICAN USE. THIS COMMENT IS FOR THE PUBLIC RECORD. PLEASE ACKNOWLEDGE RECEIPT. JEAN PUBLIC

Subject: all energy made in America stays in America - too much pollution associated with energy generation

to allow sending it anywhere else - we get the pollution, the profiteers get the money from Canada - not a good arrangement for America

DEPARTMENT OF ENERGY

[OE Docket No. EA-345-A]

Application To Export Electric Energy; New Brunswick Energy Marketing Corporation (f/k/a New Brunswick Power Generation Corp.)

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Application.

SUMMARY: New Brunswick Energy Marketing Corporation (NBEMC), formerly known as New Brunswick Power Generation Corporation, has applied to renew its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before November 27, 2013.

ADDRESSES: Comments, protests, or motions to intervene should be addressed to: Lamont Jackson, Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Lamont.Jackson@hq.doe.gov, or by facsimile to 202-586-8008.

FOR FURTHER INFORMATION CONTACT: Lamont Jackson (Program Office) at 202-586-0808, or by email to Lamont.Jackson@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On December 5, 2008, DOE issued Order No. EA-345, which authorized NBEMC, under its former name New Brunswick Power Generation Corporation, to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing international transmission facilities. That authority expires on December 5, 2013. On October 5, 2013, NBEMC filed an application with DOE for renewal of the export authority contained in Order No. EA-345 for an additional five-year term.

NBEMC, a Canadian corporation, is a power marketer in New Brunswick Province, Canada. The principal business of NBEMC, as directed by statute, is the import and export of energy to and from the Province of New Brunswick. NBEMC states that it does not own, operate, or control any physical assets such as electric generating or transmission facilities, and it does not have a franchised service area. The electric energy that NBEMC proposes to export to Canada would be surplus energy purchased from electric utilities and other suppliers within the United States. The existing international transmission facilities to be utilized by NBEMC have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments on the NBEMC application to export electric energy to Canada should be clearly marked with OE Docket No. EA-345-A. An additional copy is to be provided directly to NB Energy Marketing Corporation, Attn: Secretary and General Counsel, P.O. Box 2040,

Fredericton, New Brunswick E3B 5G4 and Steven Hudson, P.O. Box 1058, 45 Memorial Circle, Augusta, Maine 04332. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Issued in Washington, DC, on October 22, 2013.

Brian Mills,
Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.
