

# Doing Business with the Office of Health, Safety and Security (HSS)

# HSS Mission

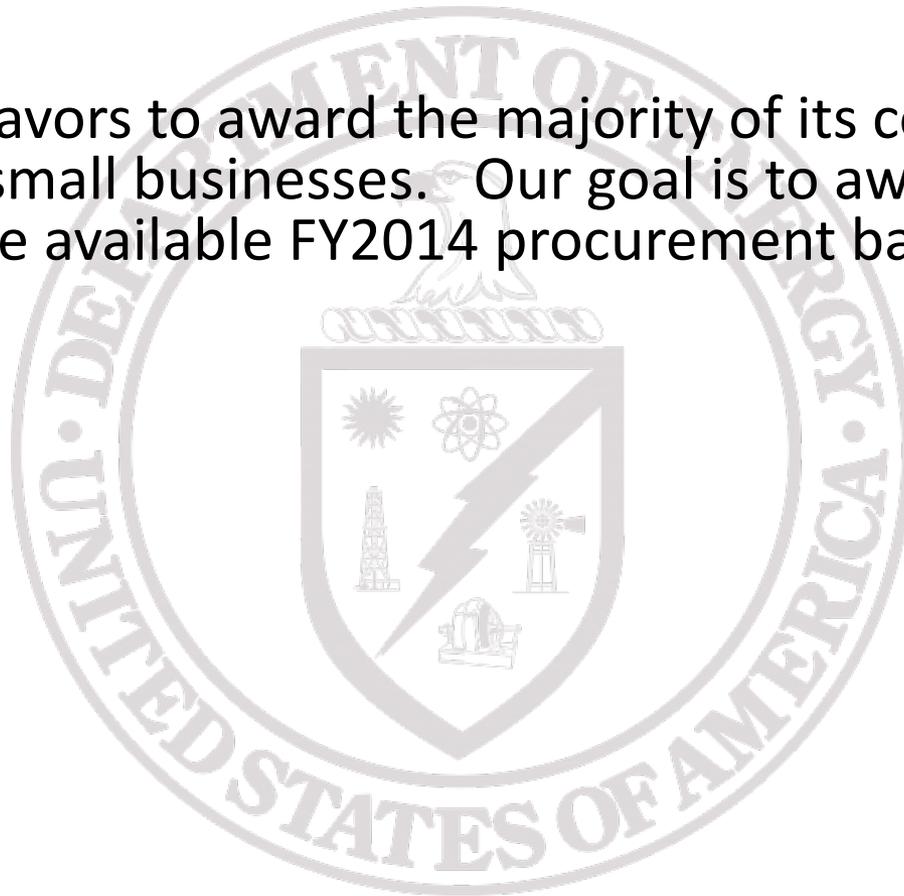

The Office of Health, Safety and Security (HSS) is the Department of Energy's (DOE) central organization responsible for health, safety, environment, and security; providing corporate-level leadership and strategic vision to coordinate and integrate these programs

HSS is responsible for policy development and technical assistance; analysis; corporate safety and security programs; training; complex-wide independent oversight; and enforcement

The Chief Health, Safety and Security Officer advises the Secretary and the Deputy Secretary on all matters related to health, safety, and security across the complex

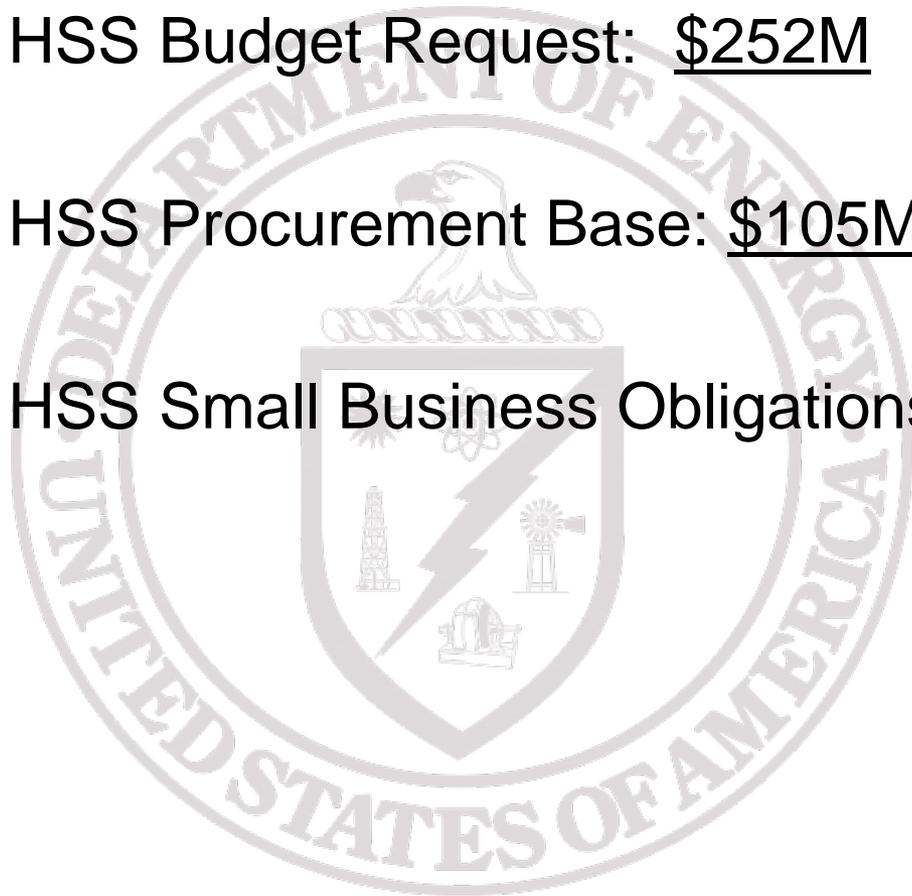

# HSS Small Business Vision

HSS endeavors to award the majority of its contracts to SBA certified small businesses. Our goal is to award more than 70% of the available FY2014 procurement base to small business.

# HSS Small Business Funding Profile

- FY 2014 HSS Budget Request: \$252M
- FY 2014 HSS Procurement Base: \$105M
- FY 2014 HSS Small Business Obligations: \$76.7M

# FY 2014 Focus Areas for HSS

## **HSS activities involve/impact all DOE programs, Other Government Departments and Agencies, and International Organizations**

- **Develops health, safety and security policies and administers worker health and safety programs related to DOE operations**
- **Manages the Department's Former Worker Program and assists the Department of Labor's implementation of Energy Employees Occupational Illness Compensation Program Act (EEOICPA)**
- **Manages international health and environmental studies in Japan, Spain, Russia, and the Marshall Islands**
- **Manages DOE enforcement programs related to worker safety, nuclear safety, and information security**
- **Conducts Independent Oversight of DOE safeguards, security, cyber security, emergency management, environment, safety, and health programs**

# FY 2014 Focus Areas for HSS

- **Develops nuclear safety standards and participates in the development and implementation of National response policies regarding radiological incidents**
- **Develops and provides safety and security related training and professional development programs via the National Training Center in Albuquerque, NM**
- **Oversees U.S. Government classification and declassification programs related to nuclear weapons information**
- **Manages the DOE Personnel Security and Access Authorization Programs**
- **Manages DOE Headquarters security and protective force and executive protection operations**

# FY 2014 Focus Areas for HSS

## Recent Achievements:

- **Enforcement and Oversight Support Contract**

In May 2013, HSS awarded a 5-year contract worth up to \$127M to Eagle Research Group, a certified small business. This small business contractor provides technical and administrative support for the Office of Enforcement and Oversight which is responsible for ensuring that all DOE sites are in compliance with current performance measures, policies and procedures regarding security, safety and health.

- **Office of Classification Support Contract**

In July 2013, HSS awarded a 5-year contract worth up to \$60M to GET-NSA, a certified mentor/protégé 8(a) joint venture (JV) company. This small business contractor provides technical and administrative support for the Office of Classification which is responsible for the management of the U.S. Government-wide program to classify and declassify nuclear weapons-related technology and documentation.
