## SOLICITATIONS FOR FUNDING AND AWARDS

[Brown text indicates a new entry, or updated information, since last month.]

ORGANIZATION	PROJECT	FUNDING	DEADLINE	WEBSITE
California Air Resources Board (CARB)	Clean Vehicle Rebate Project	\$4.1 million	First come, first served.	<a href="http://www.cvrp.energycenter.org">www.cvrp.energycenter.org</a>
CARB	On-Road Heavy-Duty Vehicle Loan Program	~\$48 million for loan guarantees	Rolling deadline until funds are awarded.	<a href="http://www.arb.ca.gov/ba/loan/on-road/documents/hdvloanprogram.pdf">www.arb.ca.gov/ba/loan/on-road/documents/hdvloanprogram.pdf</a>
CARB	California — Hybrid Truck and Bus Voucher Incentive Project (HVIP)	\$9.8 million	First come, first served.	<a href="http://www.californiahvip.org">http://www.californiahvip.org</a>
Climate Trust	Greenhouse Gas Offset Projects	\$8 million	Rolling deadline until funds are awarded.	<a href="http://www.climatetrust.org/apply.html">http://www.climatetrust.org/apply.html</a>
Efficiency Maine	Small Business Low Interest Loan Program	Indeterminate	Rolling deadline until funds are awarded.	<a href="http://www.energymaine.com/business_programs_sblilp.htm">http://www.energymaine.com/business_programs_sblilp.htm</a>
Environmental Finance Center, University of Maryland	Port of Baltimore Clean Diesel Program (including Locomotive Engine Idle Reduction Grant Sub-Program)	\$3.5 million	Rolling deadline until funds are awarded.	<a href="http://www.efc.umd.edu/cleandiesel.html">http://www.efc.umd.edu/cleandiesel.html</a>
Florida Department of Environmental Protection	Clean Diesel Rebate Program	\$300,000	Rolling deadline until funds are awarded.	<a href="http://www.dep.state.fl.us/air/emission/m-sc/diesel_emission.htm">http://www.dep.state.fl.us/air/emission/m-sc/diesel_emission.htm</a>
Minnesota Pollution Control Agency	Small Business Auxiliary Power Unit (APU) Loan Program	\$192,000	Rolling deadline until funds are awarded.	<a href="http://www.pca.state.mn.us/programs/sb_omb_loan.html#evaluation">http://www.pca.state.mn.us/programs/sb_omb_loan.html#evaluation</a>
North Carolina Division of Air Quality	North Carolina State Auxiliary Power Unit and 2010 Compliant Heavy-Duty Truck Rebate Program	<b>\$265,018 (as of May 19, 2010)</b>	Rolling deadline until the funds are awarded or September 30, 2010.	<a href="http://www.ncair.org/motor/Rebates/">http://www.ncair.org/motor/Rebates/</a>
North Central Texas Council of Governments (NCTCOG)	Heavy-Duty Vehicle and Equipment Grant Program	On-board idle reduction, ~ \$230,000; on-site idle reduction, <b>~\$1.3 million</b>	Rolling deadline until June 25, 2010.	<a href="http://www.nctcog.org/trans/air/program_s/terp/hdvegp/idle.asp">http://www.nctcog.org/trans/air/program_s/terp/hdvegp/idle.asp</a>

## REGULATORY NEWS

### Third Time's the Charm for Alabama

After two failed attempts to pass a weight exemption bill in previous legislative sessions, Alabama lawmakers may now claim victory. On April 21, 2010, Alabama Governor Bob Riley signed Alabama Act 2010-543 (Senate Bill 288), which increases by 400 pounds the allowed gross, tandem, axle, or bridge formula weight limit for trucks equipped with idling reduction equipment. The full text of the bill can be found through Alabama's

Secretary of State website, <http://arc-sos.state.al.us/cgi/actdetail.mbr/detail?year=2010&act=543&page=bill>.

For more information, please see [http://www.landlinemag.com/todays\\_news/Daily/2010/May10/051010/051310-03.htm](http://www.landlinemag.com/todays_news/Daily/2010/May10/051010/051310-03.htm).

## Pennsylvania Toughens Its Idling Regulations

The Allegheny County Health Department recently enacted a regulation in the Pittsburgh, Pennsylvania, area, effective May 1, 2010, to reduce idling emissions from diesel-fueled, off-road vehicles. Such idling is now limited to no more than 5 consecutive minutes. Developed with input from the construction industry and environmental organizations, the rule applies to any person or business owning or operating diesel-fueled compression ignition engines of 25 horsepower or greater that power off-road vehicles or are not registered for on-road use. Such vehicles are typically used in construction, mining, land filling, manufacturing, warehousing, airport ground support, and other industrial operations. Exemptions from the 5-minute limit include: idling necessary to accomplish the work for which the equipment is designed; idling to ensure safe operation of equipment;

idling for the equipment operator's physical well-being while working; and idling any vehicle used in an emergency or public safety capacity. A first offense comes with a penalty of \$100; penalties of \$500 follow for subsequent violations. Please go to [www.achd.net](http://www.achd.net) for more information.

Pennsylvania's Diesel Powered Motor Vehicle Idling Act, which took effect in February 2009, included an exemption to allow truck and bus drivers to idle their engines to provide cab cooling or heat when temperatures were less than 40°F or more than 75°F. This exemption expired on May 1, 2010. Idling is now restricted to no more than 5 minutes in any 60-minute period. For more information, please see <http://www.dep.state.pa.us/dep/deputate/airwaste/aq/cars/idling.htm>.

---

## Much Legislative Ado about Idling

The States have been busy with legislation regarding both the 400-pound weight exemption and idling-time restrictions. In Florida, House Bill (HB) 1271, which includes a provision for the 400-pound exemption, awaits Governor Crist's signature. Weight exemption bills in California (Assembly Bill 1772) and New York (Senate Bill [SB] 5722) are also in the pipeline. Massachusetts' H3334 remains in committee.

Michigan has introduced SB1069, which limits the idling of commercial vehicles to no more than 5 minutes per hour. Wisconsin and Vermont, on the other hand, ended their legislative sessions without passing bills that would have restricted truck idling to 5 minutes or less in any 60-minute period. For more information on Michigan, Wisconsin, and Vermont, please see [http://www.landlinemag.com/todays\\_news/Daily/2010/May10/052410/052410-05.htm](http://www.landlinemag.com/todays_news/Daily/2010/May10/052410/052410-05.htm).

## Toronto's Board of Health Proposes Tighter Idling Restrictions

Toronto's Board of Health has voted in favor of reducing the maximum idling time in the city from 3 minutes to 1 minute. The exemption for extreme temperatures would be eliminated altogether. The proposed idling bylaw will go before the Toronto City Council on June 8 and 9. Toronto, which first passed an idling bylaw in 1996, was the first city in Canada to

restrict the idling of cars. The Board of Health's recommendations can be found at [http://www.toronto.ca/health/boh\\_reports.htm#hl30\\_02](http://www.toronto.ca/health/boh_reports.htm#hl30_02), and agendas and minutes for the Toronto City Council can be found at <http://www.toronto.ca/legdocs/2010/agendas/cc.htm>.

## British Columbia Grants Weight Allowance for Trucks

Acting on a recommendation from the Trucking Sector Climate Action Working Group, the province of British Columbia has adopted a weight allowance for trucks equipped with APUs. The Ministry's Commercial Vehicle Safety and Enforcement branch now permits a weight tolerance of

up to 225 kg (500 pounds) for vehicles with APUs. A length allowance was also granted. For more information, please see [http://www2.news.gov.bc.ca/news\\_releases\\_2009-2013/2010TRAN0021-000541.htm](http://www2.news.gov.bc.ca/news_releases_2009-2013/2010TRAN0021-000541.htm).

## MANUFACTURERS' NEWS

### Thermo King: SmartWay Verification and New Series

EPA's SmartWay program recently verified Thermo King's TriPac<sup>®</sup> electric auxiliary idle reduction and temperature management system, as well as the company's engine-based APU, TriPac.

Additionally, Thermo King has launched a new T-Series line of temperature-control units for straight trucks: the T-600R and the T-800R. The units use

the SmartPower electric standby option, which reduces fuel use and emissions by allowing the unit to operate on electric power while at the dock. More information is available at <http://www.thermoking.com/tk/index.asp>.

### GREEN Star: An APU for the Fire Service

Rosenbauer, a manufacturer of fire-fighting apparatus, has introduced the GREEN Star idle reduction system. With this APU, once the vehicle is on scene and the parking brake set, electronic controls shut off the vehicle's main engine and start the diesel-powered APU. Introduced at the Fire

Department Instructors Conference in Indianapolis, Indiana, in April, the APU uses a quarter of the fuel that would be used by the main engine. If power demand exceeds the APU's ability to produce power, the system automatically restarts the main engine. According to Rosenbauer, fire

services increasingly respond to fewer fires and more medical and other emergency calls. During these times, vehicles idle an average of 10–40

minutes to keep lights and communication equipment functioning. For more information, please see [http://www.rosenbaueramerica.com/green\\_star/](http://www.rosenbaueramerica.com/green_star/).

---

## Black Rock Closed for Business

Black Rock Systems, manufacturer of the BlackRock APU, ceased operations on April 30, 2010. BlackRock customers requiring service are referred to the company's distributors and service centers. According to *Land Line*, the company is seeking a buyer for its warranty obligations. More information is

available at [http://www.landlinemag.com/todays\\_news/Daily/2010/May10/051010/051010-04.htm](http://www.landlinemag.com/todays_news/Daily/2010/May10/051010/051010-04.htm) and <http://www.blackrockapu.com/>.

---

## ELECTRIFIED PARKING SPACES

### New Investors Plan to Revive IdleAire

Having fallen into bankruptcy in January of this year, IdleAire reportedly has a new group of investors seeking to relaunch the company. According to the *Knoxville News Sentinel*, Convoy Solutions, a New York based investment group, bought IdleAire's intellectual property and some key assets. The company, which plans to remain headquartered in Knoxville, Tennessee, intends to resume service at about two dozen locations. Before the

bankruptcy filing, IdleAire had operated about 130 locations in 34 States. For more information, please see <http://www.knoxnews.com/news/2010/may/26/idleaire-starting-up-in-25-places/?partner=RSS>. The link <http://www.idleaire.com/> lists the locations planned for reopening.

---

## PORTS

### Cold Ironing Website Launched

The World Ports Climate Initiative has launched a website that provides information about onshore power supplies for ports and terminals worldwide. Differences among ports in electrical frequencies and voltage levels, along with the absence of international standards, complicate the

widespread adoption of onshore power supply, or "cold ironing." Information about cold ironing at the Ports of Los Angeles, Long Beach, and Seattle is available on the site. Please see [www.onshorepowersupply.org](http://www.onshorepowersupply.org).

## OTHER NEWS OF INTEREST

### Oregon and Texas Form Groups to Study Idling Reduction

In 2009, the Oregon Legislature directed their State DEQ to evaluate the requirements for reducing greenhouse gas emissions from commercial heavy- and medium-duty vehicles. In response, the DEQ formed the Truck Efficiency and Reduced Idling Study Group. Study group members will work with DEQ staff to report findings and recommendations for legislation to the Interim Committee on Environment and Natural Resources by October 1, 2010. More information, including the group's charter, meeting agendas and minutes, and a Draft Recommended Oregon Idling Law, can be found at

<http://www.deq.state.or.us/aq/committees/TruckEfficiencyStudyGrp.htm#Contact>.

The Texas Commission on Environmental Quality has launched the Motor Vehicle Idling Stakeholder Group. Open to the public, the group met in April. Meeting agendas and minutes and a schedule of future meetings can be found at

[http://www.tceq.state.tx.us/implementation/air/mobilesource/vim/idling\\_stakeholder.html](http://www.tceq.state.tx.us/implementation/air/mobilesource/vim/idling_stakeholder.html).

---

## RECURRING FEATURES

### Currently Available Idling Reduction Equipment

The DOE/EERE Alternative Fuels and Advanced Vehicles Data Center (AFDC) identifies manufacturers of idle reduction equipment and provides links to their websites. More information is available at

[http://www.afdc.energy.gov/afdc/vehicles/idle\\_reduction\\_equipment.html](http://www.afdc.energy.gov/afdc/vehicles/idle_reduction_equipment.html).

For EPA-verified idle reduction technologies in eight categories, please visit EPA's SmartWay Transport website at

<http://www.epa.gov/smartway/transport/what-smartway/verified-technologies.htm>.

---

### Status of the 400-Pound Weight Exemption for Idling Reduction Devices

[Ed. note: The Energy Policy Act of 2005 allowed for a national 400-pound exemption for the additional weight of idling reduction technology on heavy-duty vehicles. Each State can adopt this exemption, at its own discretion, without being subject to any penalty provision related to withholding of highway trust fund monies.]

The following table is updated as we become aware of changes. As time permits, URLs will be provided so that interested parties, such as trucking companies, can work with their State trucking associations to make sure that enforcement officials are aware of changes in the laws. Please feel free to provide us with updates.

# National Idling Reduction Network News

May 2010

State Recognition of the 400-Pound Auxiliary Power Unit Exemption to GVW Limit: 23 CFR 658.17(n)						
Alabama	District of Columbia	Kansas	Mississippi*	New York	South Carolina	West Virginia‡
Alaska	Florida	Kentucky	Missouri	North Carolina	South Dakota*	Wisconsin
Arizona	Georgia	Louisiana*	Montana*	North Dakota	Tennessee	Wyoming*

States in **black** allow the 400-lb weight exemption (asterisk means that the allowance is granted by enforcement policy rather than by State law); States in **gray** do not permit the exemption; and States in **brown** have legislation in process. †Effective July 1, 2010. ‡Effective June 11, 2010.

## Summary of State and Municipal Anti-Idling Regulations

The most current information about anti-idling regulations, for both States and municipalities, is available at [http://atri-online.org/index.php?option=com\\_content&view=article&id=164&Itemid=70](http://atri-online.org/index.php?option=com_content&view=article&id=164&Itemid=70) and [http://www.afdc.energy.gov/afdc/progs/all\\_state\\_summary.cgi?afdc/0](http://www.afdc.energy.gov/afdc/progs/all_state_summary.cgi?afdc/0).

If information for your State or municipality is outdated or erroneous, please let us know. This newsletter is also a place to let people know about possible changes in laws or regulations or the solicitation of comments related to such.

## Incentives and Funding Opportunities for Idling Reduction Projects

The DOE's Clean Cities program provides a listing of Federal and State programs that offer incentives and funding for idling reduction projects. Information can be found at [http://www.afdc.energy.gov/afdc/progs/fed\\_summary.php/afdc/US/0](http://www.afdc.energy.gov/afdc/progs/fed_summary.php/afdc/US/0). Let us know if any information needs to be changed or updated.

Additionally, the EPA Diesel Collaboratives offer news of available grant and loan programs. For the Northeast Diesel Collaborative (Regions 1 and 2), see [www.northeastdiesel.org/funding.htm](http://www.northeastdiesel.org/funding.htm); Mid-Atlantic Diesel Collaborative

(Region 3), [www.dieselmidadatlantic.org/diesel/funding.htm](http://www.dieselmidadatlantic.org/diesel/funding.htm); Southeast Diesel Collaborative (Region 4), [www.southeastdiesel.org/funding.html](http://www.southeastdiesel.org/funding.html); Midwest Clean Diesel Initiative (Region 5), [www.epa.gov/midwestcleandiesel/grants/index.html](http://www.epa.gov/midwestcleandiesel/grants/index.html); Blue Skyways Collaborative (Regions 6 and 7 plus Minnesota), [www.blueskyways.org/funding/index.html](http://www.blueskyways.org/funding/index.html); Rocky Mountain Clean Diesel Collaborative (EPA Region 8), [www.epa.gov/region8/air/rmcdc.html](http://www.epa.gov/region8/air/rmcdc.html); and West Coast Collaborative (EPA Regions 9 and 10 plus Canada and Mexico), [www.westcoastcollaborative.org/grants.htm](http://www.westcoastcollaborative.org/grants.htm).

## Tools Available to Calculate the Cost of Idling Reduction Equipment

There are a number of tools available to workplace and truck fleet managers, owner-operators, and locomotive engineers to help determine the costs and benefits of paying for and installing idling reduction equipment. A site from Canada that quantifies the costs of workplace idling

- Argonne National Laboratory (<http://www.transportation.anl.gov/pdfs/TA/361.pdf>)
- Autotherm ([http://www.autothermusa.com/idle\\_calc.html](http://www.autothermusa.com/idle_calc.html))
- DOE Clean Cities program ([http://www.afdc.energy.gov/cleancities/ccn/progs/story.php/WHATS\\_NEW/862/0/A](http://www.afdc.energy.gov/cleancities/ccn/progs/story.php/WHATS_NEW/862/0/A))
- EPA (<http://www.epa.gov/otaq/smartway/calculator/loancalc.htm>)
- Espar (<http://www.espar.com/html/service/calculator/calculator.html>)
- Fraser Basin Council (<http://web.memberclicks.com/mc/page.do;jsessionid=d0301a9d9869fa88bfd51e50592a377d5d48?sitePageId=40919&orgId=clcc>)
- Kenworth (<http://www.kenworth.com>)

is also included. The calculators are provided as tools of possible benefit; their accuracy has not been verified. Any new entry this month is shown in brown. If you are aware of other sources of possible interest to newsletter readers, please let us know.

## Locations of Electrified Parking Spaces

In collaboration with the U.S. DOT, the DOE Clean Cities program has a website showing the locations of public truck stops that have idling reduction facilities for heavy-duty trucks. These facilities are available in at least six States. CabAire, Shorepower Technologies, and EnviroDock installations are listed in this locator ([afdc.energy.gov/afdc/progs/tse\\_listings.php](http://afdc.energy.gov/afdc/progs/tse_listings.php)).

Another resource is the EPA SmartWay Interactive Activity Map, which features data from SmartWay Partners, National Transportation Idle-Free

Corridors, National Clean Diesel Campaign Retrofit Projects, School Bus USA projects, ethanol (E-85) and biodiesel fueling station projects, and other related sources. The maps enable visualization of the location of specific fuel consumption and pollution reduction projects. The maps also help users locate the nearest electrified truck stop and the nearest public alternative-fuel filling station. For more information, please go to [http://epamap10.epa.gov/website/irim\\_us\\_map.asp](http://epamap10.epa.gov/website/irim_us_map.asp).

## How to Find Back Issues of *National Idling Reduction Network News*

All issues of *National Idling Reduction Network News* may be found at [http://www1.eere.energy.gov/vehiclesandfuels/resources/fcvt\\_national\\_idling.html](http://www1.eere.energy.gov/vehiclesandfuels/resources/fcvt_national_idling.html). Additionally, a compendium of all previous issues is available on the site; this PDF file is especially useful for conducting searches of all issues of the newsletter.

Please be mindful that web links may expire or move over time and that some sources require registration. If you have trouble opening a link, try copying and pasting it, or retype the URL in your browser window.
