

Covered Product Categories

Federal mandates require Federal agencies to purchase energy-efficient products. To help buyers meet these requirements, the Federal Energy Management Program (FEMP) maintains a list of product categories covered by energy-efficient product programs. See the legend at right to find which program covers each specific product category. For more information about these covered product categories and requirements, visit femp.energy.gov/coveredproducts.

Heating and Cooling (Space and Water)

Commercial Space Heating and Cooling	
Boilers	▲
Chillers	▲
- Air-Cooled Electric	▲
- Water-Cooled Electric	▲
Light Commercial Heating and Cooling	■
Commercial Water Heating	
Gas Water Heaters	■
Residential Space Heating and Cooling	
Boilers	■
Central Air Conditioners	■
Fans	■
- Ceiling	■
- Ventilation	■
Gas Furnaces	■
Heat Pump	■
- Air-Source	■
- Geothermal	■
Room Air Conditioners	■
Residential Water Heating	
Electric Resistance Storage	▲
Heat Pump	■
Solar	■
Gas Storage	■
Whole-Home Tankless (Instantaneous)	■

IT and Electronics
