

Cybersecurity Awareness Resources Listing

The following resource list provides a variety of Cybersecurity awareness information, materials, threat updates, and promotional items that are available to the public. The information can be easily used for individual learning, enhancing family security, and is an excellent source of current cyber information for use in formal awareness campaigns for both general DOE users and technical cyber practitioners.

[Cisecurity.org](https://www.cisecurity.org) – The Center for Internet Security (CIS) provides services and products to assist organizations and individuals in improving their cybersecurity effectiveness.

[CommonSenseMedia.org](https://www.commonsensemedia.org) – Common Sense Media is dedicated to improving the lives of families by providing trustworthy information and education needed to thrive in a world of media and technology.

[ConnectSafely.org](https://connectsafely.org) – ConnectSafely.org is for parents, teens, kids and educators for learning about the safe, successful use of social media and technology.

[CyberBully411.org](https://www.cyberbully411.org) – The site provides resources for youth who have questions about or have been targeted by online harassment.

[Cyberexchange.isc2.org](https://www.cyberexchange.isc2.org) - The Cyber Exchange houses free security awareness tools from around the world, designed to be used by any organization or individual that wishes to promote online safety at work or within their community.

[DHS.gov/topic/cybersecurity](https://www.dhs.gov/topic/cybersecurity) – The Department of Homeland Security’s (DHS) website provides a variety of information and resources that address DHS cyber initiatives and programs to include cybercrime, privacy, and security critical infrastructure.

[FTC.gov](https://www.ftc.gov) – The Federal Trade Commission’s website has a variety of information and resources that address Cybersecurity and identity theft, including free materials available in bulk.

[GetNetWise.org](https://www.getnetwise.org) – The GetNetWise coalition provides Internet users the resources to make informed decisions about their lives and their family’s use of the Internet.

[iKeepSafe.org](https://www.ikeepsafe.org) – This site provides resources that teach children of all ages, in an age-appropriate way, the basic rules of Internet safety, ethics, and use of connected technologies.

MindfulSecurity.com – This site specializes in information security awareness and provides a variety of free resources such as articles, screensavers, videos, posters, and other campaign materials.

MSISAC.cisecurity.org/resources (Multi-State Information & Sharing Analysis Center) – The MS-ISAC (a division of the Center for Internet Security) provides a number of resources and publications to help raise awareness and provide guidance to the end user and organizations.

NetFamilyNews.org – NetFamilyNews.org is a nonprofit news service for parents, educators, and policymakers that provides the latest technology news about online youth in the form of a daily blog or email newsletter.

NetSmartz.org – The NetSmartz Workshop is an interactive, educational safety resource from the National Center for Missing & Exploited Children.

NICCS.us-cert.gov (National Initiative for Cybersecurity Careers and Studies) – NICCS, sponsored by DHS, is an online portal developed to address the needs of the Nation by making information on Cybersecurity training, education, and career opportunities available in a centralized, searchable, and usable online location.

OnGuardOnline.gov – OnGuardOnline.gov provides practical tips from the federal government and the technology community to help you: guard against Internet fraud, secure your computers, defend against identity theft and protect kids online.

SANS.org/newsletters/ouch – This site provides an extensive library of monthly cyber awareness newsletters that focus on specific cyber topics and actionable steps that users can take to protect themselves, their family, and their organizations.

StaySafeOnline.org – This site, sponsored by the National Cyber Security Alliance, seeks to create a culture of Cybersecurity and safety awareness by providing knowledge and tools to prevent cyber crime and attacks.

StopThinkConnect.org – The Stop.Think.Connect. (STC) website provides the basic overview of the National STC Campaign as well as free resources and tips for hosting awareness events in public, private, and educational arenas.

US-CERT.gov – US-CERT.gov, an official website by DHS, sponsors the National Cyber Awareness System which provides a variety of Cybersecurity information to both technical practitioners and general users.

WiredSafety.org – WiredSafety.org provides help, information, and education to Internet and mobile device users of all ages.
