IRVING OIL TERMINALS INC.

FE DOCKET NO. 14-80-CNG

ORDER GRANTING BLANKET AUTHORIZATION TO  
IMPORT AND EXPORT COMPRESSED NATURAL GAS  
FROM AND TO CANADA BY TRUCK

DOE/FE ORDER NO. 3466

SEPTEMBER 8, 2014

## I. DESCRIPTION OF REQUEST

On June 6, 2014, Irving Oil Terminals Inc. (Irving Oil) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA)<sup>1</sup> for blanket authorization to import and export compressed natural gas (CNG) from and to Canada by truck, up to a combined total of the equivalent of 58 billion cubic feet (Bcf) of natural gas.<sup>2</sup> The applicant requests the authorization be granted for a two-year term beginning on June 22, 2014.<sup>3</sup> Irving Oil is a Delaware corporation with its principal place of business in Portsmouth, New Hampshire.

## II. FINDING

The application has been evaluated to determine if the proposed import and/or export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including liquefied natural gas (LNG), from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest, and must be granted without modification or delay. DOE/FE has determined that CNG falls within the statutory definition of natural gas. 15 U.S.C. § 717a(5); *see also* 10 C.F.R. § 500.2. The authorization sought by Irving Oil to import and export CNG from and to Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

---

<sup>1</sup> The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FE in Redelegation Order No. 00-002.04F (July 11, 2013).

<sup>2</sup> Irving Oil amended the application request in an email to DOE/FE (June 13, 2014), which is reflected in the description of the application.

<sup>3</sup> Irving Oil's blanket authorization to export natural gas to Canada granted in DOE/FE Order No. 3119 on June 22, 2012, extended through June 21, 2014.

ORDER

Pursuant to section 3 of the NGA, it is ordered that:

A. Irving Oil is authorized to import and export CNG from and to Canada by truck, up to a combined total of 58 Bcf of natural gas, pursuant to transactions that have terms of no longer than two years. This authorization shall be effective for a two-year term which began on June 22, 2014, and extends through June 21, 2016.

B. This CNG may be imported or exported by truck at any point on the border between the United States and Canada. This CNG may be imported by truck to any CNG receiving facility in the United States and its territories. This CNG may be exported by truck from any CNG loading facility in the United States and its territories.

C. **Monthly Reports:** With respect to the imports and exports of CNG authorized by this Order, Irving Oil shall file with the Office of Oil and Gas Global Security and Supply, within 30 days following the last day of each calendar month, a report indicating whether imports and/or exports of CNG have been made. Monthly reports shall be filed whether or not initial deliveries have begun. If imports and/or exports have not occurred, a report of “no activity” for that month must be filed.

If imports of CNG by truck have occurred, the report must give the following details of each CNG cargo: (1) the name(s) of the authorized importer registered with DOE/FE; (2) the country of origin; (3) the point of entry into the U.S.; (4) the U.S. truck receiving facility and location; (5) the volume in thousand cubic feet (Mcf); (6) the price at the point of entry in U.S. dollars per million British thermal units (MMBtu); (7) the name of the supplier/seller; (8) the name of the CNG truck transporting company; (9) the name(s) of the purchaser(s); and (10) the duration of the supply agreement.

If exports of CNG by truck have occurred, the report must give the following details of each CNG cargo: (1) the name(s) of the authorized exporter registered with DOE/FE; (2) the country of destination; (3) the point(s) of exit from the U.S.; (4) the U.S. truck loading facility and location; (5) the volume in thousand cubic feet (Mcf); (6) the price at the point of exit in U.S. dollars per million British thermal units (MMBtu); (7) the name of the supplier/seller; (8) the name of the CNG truck transporting company; (9) the name(s) of the purchaser(s); and (10) the duration of the supply agreement.

(Approved by the Office of Management and Budget under OMB Control No. 1901-0294)

D. The first set of monthly reports required by this Order are due not later than September 30, 2014, and should cover the reporting period from June 22, 2014, through August 31, 2014.

E. All monthly report filings shall be made to U.S. Department of Energy (FE-34), Office of Fossil Energy, Office of Oil and Gas Global Security and Supply, P.O. Box 44375, Washington, D.C. 20026-4375, Attention: Natural Gas Reports. Alternatively, reports may be e-mailed to [ngreports@hq.doe.gov](mailto:ngreports@hq.doe.gov), or may be faxed to Natural Gas Reports at (202) 586-6050.

Issued in Washington, D.C., on September 8, 2014.
