IMPORT AND EXPORT NATURAL GAS
FROM AND TO CANADA AND MEXICO, AND

VARIOUS INTERNATIONAL SOURCES BY VESSEL

DOE/FE ORDER NO. 3519

OCTOBER 9, 2014

I. DESCRIPTION OF REQUEST

On September 10, 2014, Pemex Gas y Petroquímica Básica (PGPB) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) under section 3 of the Natural Gas Act (NGA)¹ for blanket authorization to import and export natural gas from and to Canada and Mexico, and to import liquefied natural gas (LNG) from various international sources by vessel, up to a combined total volume equivalent to 2,920 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on November 24, 2014.² PGPB is a Mexican corporation with its principal place of business in Colonia Petróleos Mexicanos, Distrito Federal (Federal District), Mexico.

II. FINDING

The application has been evaluated to determine if the proposed import and/or export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including liquefied natural gas (LNG), from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest, and applications for such imports or exports must be granted without modification or delay. The authorization sought by PGPB to import and export natural gas from and to Canada and Mexico, nations with which free trade agreements are in effect, and to import LNG from various international sources by vessel, meets the section 3(c) criterion and, therefore, is

¹ The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FE in Redelegation Order No. 00-002.04F issued on July 11, 2013.

² PGPB's blanket authorization to import and export natural gas from and to Canada and Mexico, and to import LNG from various international sources, granted in DOE/FE Order No. 3154 on October 4, 2012, extends through November 23, 2014.

consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

ORDER

Pursuant to section 3 of the NGA, it is ordered that:

A. PGPB is authorized to import and export natural gas from and to Canada and Mexico, and to import LNG from various international sources by vessel, up to a combined total volume equivalent to approximately 2,920 Bcf of natural gas, pursuant to transactions that have terms of no longer than two years. This authorization shall be effective for a two-year term beginning on November 24, 2014, and extending through November 23, 2016.

B. This natural gas may be imported and exported at any point on the border between the United States and Canada and between the United States and Mexico.

C. This LNG may be imported by vessel to any LNG receiving facility in the United States and its territories.

D. LNG imports that require increased security measures from the United States Coast Guard (USCG) and/or other branches of the Department of Homeland Security in place now or added in the future shall comply with those measures on a shipment by shipment basis to the satisfaction of the USCG. Such measures may include periodic boarding or examination of the vessel by the USCG at the load port, while the vessel is underway, at any time during the voyage, and before and during discharge of the cargo while at the discharge port, as well as other enhanced security measures.

E. **Monthly Reports:** With respect to the natural gas imports and exports authorized by this Order, PGPB shall file with the Office of Oil and Gas Global Security and Supply, within 30 days following the last day of each calendar month, a report indicating whether imports or exports of natural gas have been made. Monthly reports must be filed whether or not initial
