Date: Monday, November 17, 2014 7:26:37 PM

Dear DOE,

I am writing in support of FE Docket No. 14-96-LNG and asking you to grant an Export License to The Alaska LNG Project LLC.

Approving this application will allow the largest privately funded construction project in North America to move forward. This is personal to me, because it will help improve the long term economic prospects for Alaska. A good economy is essential if my children are to stay in Alaska after graduating from High School and College.

The Alaska LNG project will provide a large revenue source for the State of Alaska, as well as local government and even the U.S. Federal government. I would think the tax revenue alone would be reason enough to approve the export license to the Alaska LNG Project.

Alaska is distinct from the Lower 48 so this application should not be subject to DOE's existing Order of Precedence for Processing Non-FTA LNG export applications nor should it be subject to any new procedures adopted as a result of DOE's proposed procedural change for processing Non-FTA LNG export applications.

The existing Presidential Finding Concerning Alaska Natural Gas is valid and applicable to the Alaska LNG Project.

Please approve the export permit for the Alaska LNG Project LLC Docket # 14-96-LNG.

Respectfully,

Michael Jesperson
