...for responsible development of Alaska's Oil, Gas & Mineral Resources

October 30<sup>th</sup>, 2014

Mr. John A. Anderson  
Office of Fossil Energy  
United States Department of Energy  
Docket Room 3F-056, FE-50  
Forrestal Building  
1000 Independence Avenue, SW  
Washington, DC 20585

RE: Alaska LNG Project LLC, Docket No. 14-96-LNG  
Support of Application for Long-Term Authorization to Export Liquefied Natural Gas

Dear Mr. Anderson:

I am writing on behalf of the 500 members of the Alaska Support Industry Alliance who provide the expertise and the manpower to oil, gas and mining projects in the state of Alaska. I write in support of the application filed by Alaska LNG Project LLC to export LNG to both Free Trade Agreement and Non-Free Trade Agreement countries.

The Alaska LNG Project, with the liquefaction facility to be constructed would provide a source of much-needed in-state gas to Alaskans

The Alaska LNG Project would provide significant economic benefits to Alaskans including state revenues, new job opportunities and access to decades of domestically produced natural gas for homes and businesses in Alaska. The Alaska LNG Project team is expected to create up to 15,000 jobs during construction and approximately 1,000 jobs for operation of the Project.

The Alliance believes that the export authorization sought by the Alaska LNG Project is fully consistent with both the public interest of Alaska and the nation.

Sincerely,

Rebecca Logan/General Manager for the Alaska Support Industry Alliance
