

OFFICE OF FOSSIL ENERGY

Petroleum Reserves

VISION

Energy security for America

MISSION

Protect the United States from severe petroleum supply interruptions through the acquisition, storage, distribution, and management of emergency petroleum stocks and to carry out U.S. obligations under the International Energy Program

GOALS

1. Maintain operational readiness to release oil from the Strategic Petroleum Reserve upon direction of the President or the Secretary
2. Place the highest priority on public health, workforce safety, and protection of the environment in the daily execution of mission requirements
3. Conduct regular assessments of U.S. petroleum distribution patterns to ensure that Strategic Petroleum Reserve drawdown capabilities are responsive to stakeholder requirements
4. Develop, analyze, evaluate, and implement a strategy to configure the Strategic Petroleum Reserve to meet long-term U.S. energy security requirements
5. Share technical expertise, best practices, and lessons learned from U.S. Strategic Petroleum Reserve operations within the international partners in support of global petroleum stockpiling
6. Protect the northeast U.S. from short-term supply shocks to the heating oil market through the use of the Northeast Home Heating Oil Reserve
7. Complete environmental cleanup and remediation of the former Naval Petroleum Reserve
