Subject: FE Docket No. 14-179-LNG
Date: Monday, February 09, 2015 3:24:04 PM

I just heard about this proposal today, 2/9/2015 around 3:00 pm - so we ask at the least, an extension on your decision. We are extremely opposed to "anything to do with the exportation of our much needed energy sources" in Massachusetts as well as the whole country. We are being "sold short". We, the "common, elderly, people, living on Social Security", are unable to pay our bills - the addition of tariffs, exportation of gas, "fracked", destroying the environment and presenting health issues, environmental destruction and putting fear of living in an "incineration zone" really are causing extreme anxiety for myself and my husband. We are faced with the devaluation of our property and the fear of living with a pipeline in our yard is overwhelming. I, myself, suffer from PTSD - this is making me sick. If you approve the pipeline for the use of private business - endangering the environment, health and beauty of our state, and terrifying the public", you are giving them "Carte Blanche" with the remainder of what they propose to do - please do not allow this to happen. Robert and Elizabeth Tatro, Lanesboro, MA 01237
