Subject: FE Docket No. 14-169-LNG
Date: Monday, February 09, 2015 3:49:00 PM

To whom it may concern,
Please do not approve this gas export scheme. Selling gas overseas is not good for the US economy in the long run, but the most important reason that this is not in our interest is because continued mining and producing gas is very bad for our environment, due to the emissions of carbon dioxide and methane, and their effect on the temperature of the atmosphere; ie, climate change - which will be devastating if such projects continue.

Sincerely,
Laura Kaye
