Subject: LNG export terminal
Date: Monday, February 09, 2015 4:13:13 PM

To whom it may concern,

I am writing to express strong opposition to the LNG export proposal. We need to stop the continued and increasing burning of fossil fuels if we are to have a livable climate.

The transport of more and more fossil fuels to be burned in any market - foreign or domestic - is a threat to life as we know it. Methane is a powerful greenhouse gas, and increasing its use by export to foreign markets is not in the public interest. We cannot afford to exacerbate climate change in this way.

I have only recently learned about the comment period. I request that you grant a motion to intervene in these proceedings, so more of the public can have an opportunity to express their deep concerns about this very important matter.

Best,
Susan Lees
