Subject: Request to lengthen comment period for the LNG export proposal
Date: Monday, February 09, 2015 4:14:35 PM

Dear Madam/Sir,

I am a mother of two children, Isabelle 15, and Cedric 12, whose future will be severely compromised if we continue burning fossil fuels. As a mother, it is my duty to protect my children from harm and I am writing today to do just that.

I am strongly opposition to the Liquid Natural Gas export proposal. The transport of more and more fossil fuels to be burned in any market - foreign or domestic - is a threat to life as we know it. Methane is a powerful greenhouse gas, and increasing its use by export to foreign markets is not in the public interest. We cannot afford to exacerbate climate change in this way.

I and many others have only recently learned about the comment period. **Please grant a motion to intervene in these proceedings, so more of the public can have an opportunity to express their deep concerns about this very important matter.**

Respectfully,

Vanessa Rule
Somerville, MA
