**Subject:** WE NEED MORE TIME... " PROPOSED" Plains and Eastern HVDC Line

Dr. Moniz,,

The comment period does NOT give us enough time to study and review on a project this size that effects soooo many people !!!!!

There needs to be more Public Information of All the appendices and criteria , given to The Department of Energy that they will be seeing to Consider this.. This needs to be handled the same as Draft EIS !!

So Please extend an extension to be truly fair to ALL of US INVOLVED ..

Thank you for your consideration. !!!!!
