**Subject:** P&E Clean Line Part 2 - 1222: Delays in posting comments - request for a revised deadline August 13, 2015

Dear Secretary Moniz,

As you may see below is taking 7 days to get *confirmation* on public comments, plus whatever time to post.

With the July 13 deadline, Arkansans are checking the docket concerned with the outcome. Public comments are sent for your consideration, and to let other people know of the new issues found. Clean Line benefits from posting delays, they continue lobbying and doing whatever they can in a desperate attempt to get DOE approval.

If DOE can't manage public comments, *please allow additional time. August 13, 2013 would be a reasonable deadline.*

Respectfully,

Dr. Luis Conteras

**To:** Luis Contreras <docontreras@gmail.com>

Thank you for your interest in the 1222 Program. This email confirms that your comment has been received. It may take several business days for your comment to be posted on the DOE website.

Please note that DOE has decided to extend the end of this public comment period until July 13, 2015. There will be no public hearings during this comment period.
