Subject: public comment on federal register
Date: Wednesday, August 26, 2015 10:29:41 AM

i oppose building lng ports to send energy out of the usa. our land is destroyed to frack this natural gas out of our national lands. far too often the water is destroyed in the area and made completely and totally ever usable again. the lands are destroyed and earthquakes result as they do in oklahoma. the land is left poisoned from these toxic chemicals. i do not want our land destroyed so that some rich fat cat corporation can make big money by selling this energy out of this country our energy should be for america so we should not be sending it out of this country. this is outrageous. stop this now. this comment is for the public record. please receipt. jean public jeanpublic1@gmail.com

DEPARTMENT OF ENERGY

[FE Docket No. 15-63-LNG]

Sabine Pass Liquefaction, LLC; Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations for a 20-Year Period

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on April 20, 2015, by Sabine Pass Liquefaction, LLC (SPL), requesting long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) in a volume equivalent to approximately 203 billion cubic feet per year (Bcf/yr) of natural gas (0.56 Bcf per day). SPL seeks to export the LNG by vessel from Trains 1 through 4 of the Sabine Pass Liquefaction Project (Liquefaction Project), which SPL and its affiliate, Sabine Pass LNG, L.P., are currently constructing at the existing Sabine Pass LNG Terminal in Cameron Parish, Louisiana.\1\ SPL requests authorization to export this LNG to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries).\2\ DOE/FE notes that the requested export volume (203 Bcf/yr) is incremental and therefore additive to the volumes of LNG previously authorized for export from the Liquefaction Project to non-FTA countries. Specifically, SPL states that the grant of this Application will align the volumes of LNG authorized for export to non-FTA countries with the maximum liquefaction production capacity of the Liquefaction Project, as approved by the Federal Energy Regulatory Commission.\3\ SPL requests the authorization for a 20-year term to commence on the date of first commercial export from the Liquefaction Project. SPL seeks to export this LNG on its own behalf and as agent for other entities who will hold title to the LNG at the time of export. The Application was

filed under section 3 of the Natural Gas Act (NGA). Additional details can be found in SPL's Application, posted on the DOE/FE Web site at: http://energy.gov/sites/prod/files/2015/05/f22/15_63_lng.pdf

\1\ SPL states that the requested authorization would require no new construction or modification of authorized facilities. App. at 2 n.4.

\2\ In a prior application filed in FE Docket No. 14-92-LNG on July 11, 2014, SPL requested authorization to export the same volume of LNG from the Liquefaction Project (Trains 1-4) to any nation that currently has, or may enter into, a FTA requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (FTA countries). On February 12, 2015, DOE/FE granted that request in Order No. 3595 pursuant to NGA Sec. 3(c), 15 U.S.C. 717b(c). See Sabine Pass Liquefaction, LLC, DOE/FE Order No. 3595, FE Docket No. 14-92-LNG, Order Granting Long-Term, Multi-Contract Authorization to Export Liquefied Natural Gas by Vessel from the Sabine Pass LNG Terminal in Cameron Parish, Louisiana, to Free Trade Agreement Nations (Feb. 12, 2015); Sabine Pass Liquefaction, LLC, Errata to DOE/FE Order Nos. 3595 & 3384, FE Docket Nos. 14-92-LNG & 13-121-LNG (Feb. 24, 2015). For additional procedural history, see Sabine Pass Liquefaction, LLC, DOE/FE Order No. 3669, FE Docket Nos. 13-30-LNG, 13-42-LNG, & 13-121-LNG, Final Opinion and Order Granting Long-Term, Multi-Contract Authorization to Export Liquefied Natural Gas by Vessel from the Sabine Pass LNG Terminal Located in Cameron Parish, Louisiana, to Non-Free Trade Agreement Nations, at 18-21 (June 26, 2015).

\3\ App. at 2 n.5.

Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, October 26, 2015.

SUPPLEMENTARY INFORMATION:

DOE/FE Evaluation

The Application will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a), and DOE will consider any issues required by law or policy. To the extent determined to be relevant, these issues

will include the domestic need for the natural gas proposed to be exported, the adequacy of domestic natural gas supply, U.S. energy security, and the cumulative impact of the requested authorization and any other LNG export application(s) previously approved on domestic natural gas supply and demand fundamentals. DOE may also consider other factors bearing on the public interest, including the impact of the proposed exports on the U.S. economy (including GDP, consumers, and industry), job creation, the U.S. balance of trade, and international considerations; and whether the authorization is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Additionally, DOE will consider the following environmental documents:

Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States, 79 FR 48132 (Aug. 15, 2014); \4\ and

\4\ The Addendum and related documents are available at:
<http://energy.gov/fe/draft-addendum-environmental-review-documents-concerning-exports-natural-gas-united-states>.

Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States, 79 FR 32260 (June 4, 2014).\5\

\5\ The Life Cycle Greenhouse Gas Report is available at:
<http://energy.gov/fe/life-cycle-greenhouse-gas-perspective-exporting-liquefied-natural-gas-united-states>.

[[Page 51793]]

Parties that may oppose this Application should address these issues in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 et seq., requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Due to the complexity of the issues raised by the Applicant, interested persons will be provided 60 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Filings may be submitted using one of the following methods: (1) emailing the filing to fergas@hq.doe.gov, with FE Docket No. 15-63-LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Oil and Gas Global Security and Supply at the address listed in ADDRESSES; or (3) hand delivering an original and three paper copies of the filing to the Office of Oil and Gas Global Supply at the address listed in ADDRESSES. All filings must include a reference to FE Docket No. 15-63-LNG. Please Note: If submitting a filing via email, please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted

greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

The Application is available for inspection and copying in the Division of Natural Gas Regulatory Activities docket room, Room 3E-042, 1000 Independence Avenue SW., Washington, DC 20585. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. The Application and any filed protests, motions to intervene or notice of interventions, and comments will also be available electronically by going to the following DOE/FE Web address: <http://www.fe.doe.gov/programs/gasregulation/index.html>.

Issued in Washington, DC, on August 20, 2015.

John A. Anderson,
Director, Office of Oil and Gas Global Security and Supply, Office of Oil and Natural Gas.
