i am definitely opposed to this country being dug up and poisoned by tge fracking industry so that a few rich fat cat pals of the corrupt washington gobt can destroy our natural lands and then make big money selling our birthright to foreigners so they can be rich billionaires. this disgusting practice needs to be stopped. it was stopped for eon in the united stasses now we seemingly have corruption rampant in washington dc and our entire ocuntry is being sold downt he river in vioalation of the responsibility to its citizens.

i am definitely opposed to selling this fracked natural gas to frieigners. is it so ehtye can then use it tod estroy us? is it so some greedy americans can cheat our kids out of having a clean country that is not full of poison.

fracking makes eartqukes. fracking make poison in the water that kills people. fracking destroys the land forever sot hat there are subsidences. this is real posioin to america. we do not want this product sold out of america. if we destroy america at least it is for americvans. not for. foreigners. lket them get their own oil in their own countries. this commetn is for thepublic record. please receipt. jean publi jeanpublic1@gmail.com

DEPARTMENT OF ENERGY

[FE Docket No. 15-78-LNG]

Strom, Inc.; Application for Long-Term, Multi-Contract
Authorization To Export Liquefied Natural Gas to Non-Free Trade
Agreement Nations for a 25-Year Period

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on May 6, 2015, by Strom, Inc. (Strom), requesting long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) in a volume equivalent to approximately 56.42 billion cubic feet per year (Bcf/yr) of natural gas (0.15 Bcf/day).\1\ Strom seeks to export the LNG from its proposed natural gas liquefaction project in Crystal River, Florida (Facility). According to Strom, the LNG will be liquefied in modular, scalable, and portable LNG systems at the Facility.\2\ The LNG will be loaded into approved ISO IMO7/TVAC-ASME LNG (ISO) containers, and sent by highway or rail to Port Tampa Bay or other ports that will require little or no modification to export by ocean-going vessel.\3\ Strom requests authorization to export this LNG to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or

policy (non-FTA countries).\4\ Strom requests the authorization for a 25-year term to commence on the earlier of the date of first export or five years from the date the authorization is granted. Strom seeks to export this LNG on its own behalf and as agent for other entities who hold title to the LNG at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA). Additional details can be found in Strom's Application, posted on the DOE/FE Web site at: http://energy.gov/sites/prod/files/2015/05/f22/15_78_lng.pdf.

\1\ Strom states that this Application replaces the applications it previously filed in FE Docket Nos. 14-57-LNG and 14-58-LNG, which it has withdrawn.

\2\ In its Application, Strom provides additional information about these modular LNG systems, and how it intends to begin and eventually to increase LNG production to the requested export level. App. at 2.

\3\ See id. at 3, 5.

\4\ On October 21, 2014, in Order No. 3537, DOE/FE authorized Strom to export domestically produced LNG in a volume equivalent to 28.21 Bcf/yr of natural gas from the proposed Facility to any country with which the United States has a FTA requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. or policy (FTA countries). Strom, Inc., DOE/FE Order No. 3537, FE Docket No. 14-56-LNG, Order Granting Long-Term, Multi-Contract Authorization to Export Liquefied Natural Gas in ISO Containers Loaded at the Proposed Strom LNG Terminal in Crystal River, Florida, and Exported by Vessel to Free Trade Agreement Nations (Oct. 21, 2014). The volume sought in this Application is not additive to the volume approved for export in that order.

Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, October 26, 2015.

SUPPLEMENTARY INFORMATION:

DOE/FE Evaluation

The Application will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a), and DOE will consider any issues required by law or policy. To the extent determined to be relevant, these issues will include the domestic need for the natural gas proposed to be exported, the adequacy of domestic natural gas supply, U.S. energy security, and the cumulative impact of the requested authorization and any other LNG export application(s) previously approved on domestic natural gas supply and demand fundamentals. DOE may also consider other factors bearing on the public interest, including the impact of the proposed exports on the U.S. economy (including GDP, consumers, and industry), job creation, the U.S. balance of trade, and international considerations; and whether the authorization is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Additionally, DOE will consider the following environmental document: Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States, 79 FR 48132 (Aug. 15, 2014).\5\ Parties that may oppose this Application should address these issues in their comments and/or protests, as well as other issues deemed relevant to the Application.

\5\ The Addendum and related documents are available at:
<http://energy.gov/fe/draft-addendum-environmental-review-documents-concerning-exports-natural-gas-united-states>.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 et seq., requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Due to the complexity of the issues raised by the Applicant, interested persons will be provided 60 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR Part 590.

Filings may be submitted using one of the following methods: (1) emailing the filing to fergas@hq.doe.gov, with FE Docket No. 15-78-LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Oil and Gas Global Security and Supply at the address listed in ADDRESSES; or (3) hand delivering an original and three paper copies of the filing to the Office of Oil and Gas Global Supply at the address listed in ADDRESSES. All filings must include a reference to FE Docket No. 15-78-LNG. Please Note: If submitting a filing via email, please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

The Application is available for inspection and copying in the Division of Natural Gas Regulatory Activities docket room, Room 3E-042, 1000 Independence Avenue SW., Washington, DC 20585. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. The Application and any filed protests, motions to intervene or notice of interventions, and comments will also be available electronically by going to the following DOE/FE Web address: <http://www.fe.doe.gov/programs/gasregulation/index.html>.

Issued in Washington, DC, on August 20, 2015.
John A. Anderson,
Director, Office of Oil and Gas Global Security and Supply, Office of
Oil and Natural Gas.
