

**SESSION H3: STRATEGIC ENERGY
MANAGEMENT**

SUPERIOR ENERGY PERFORMANCE

IMPLEMENTATION CASE STUDY:

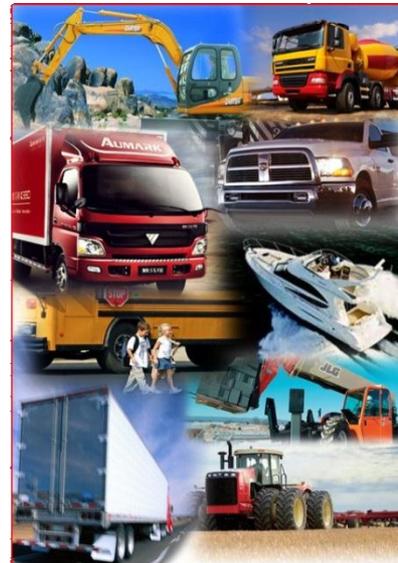

CUMMINS ROCKY MOUNT ENGINE PLANT

THURSDAY, OCTOBER 1, 2015

MARK VANDAM

FACILITIES ENGINEER / ENERGY LEADER

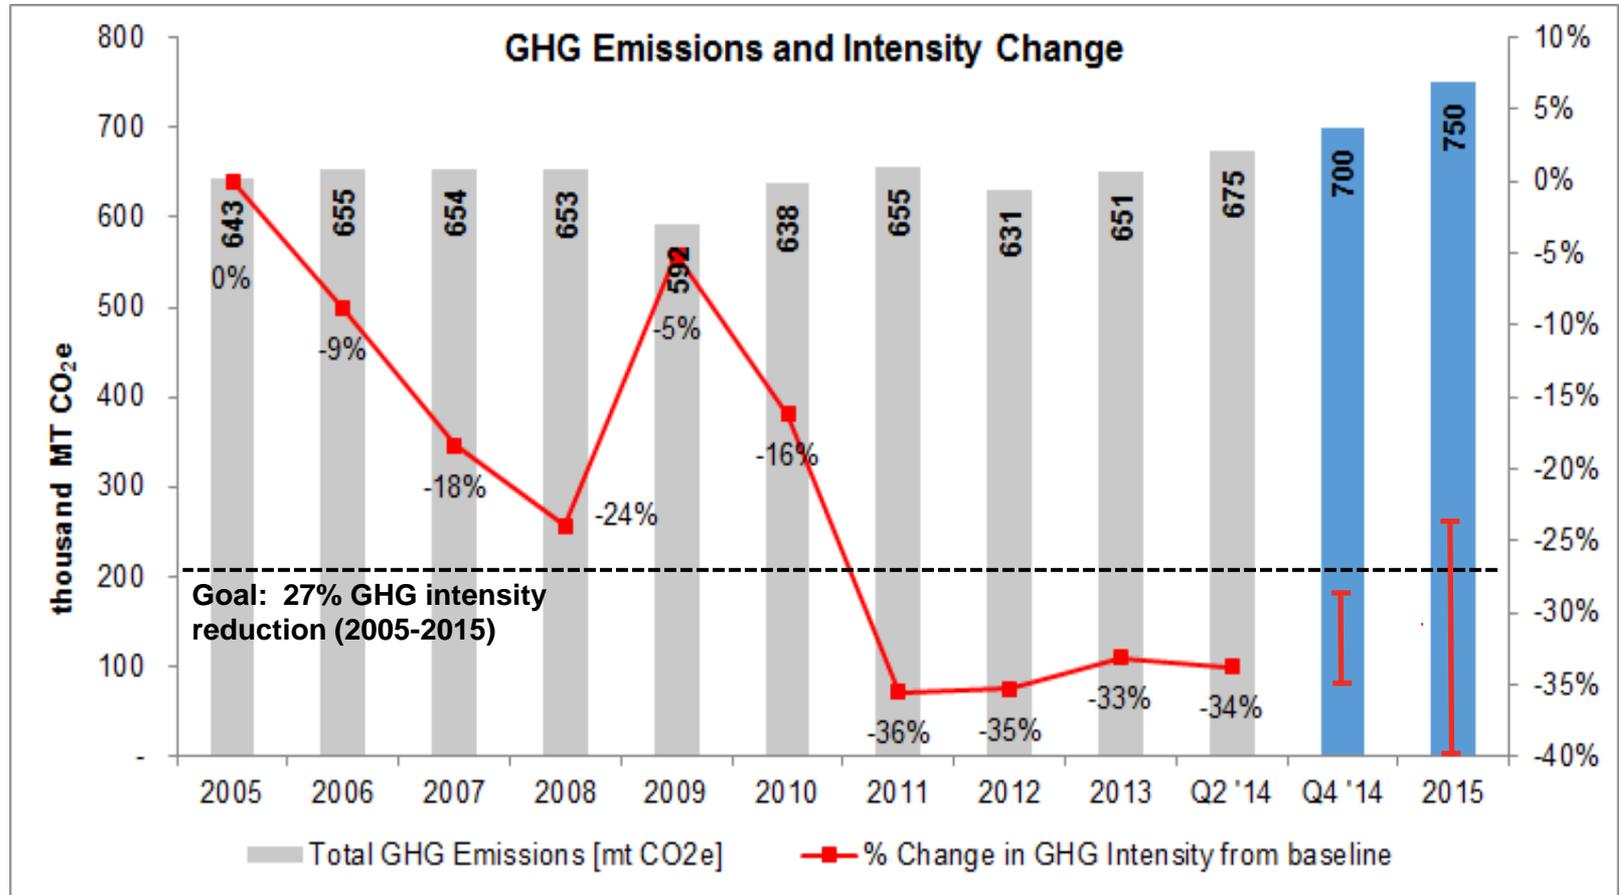

Topic Outline

- Cummins Commitment to Energy and Greenhouse Gas Reduction
- RMEP Information
- Challenges to Implement SEP
- Benefits from Implementing SEP
- Next Steps

Cummins – Energy & GHG

GHG intensity: metric tons CO₂e normalized by total revenue (consolidated sites only)

Cummins RMEP

The largest energy consumer out of
300 Cummins facilities Worldwide

Challenges to Implementing SEP

Cost

ISO 14001

SEP Tools

Resources

ISO 18001

Projects

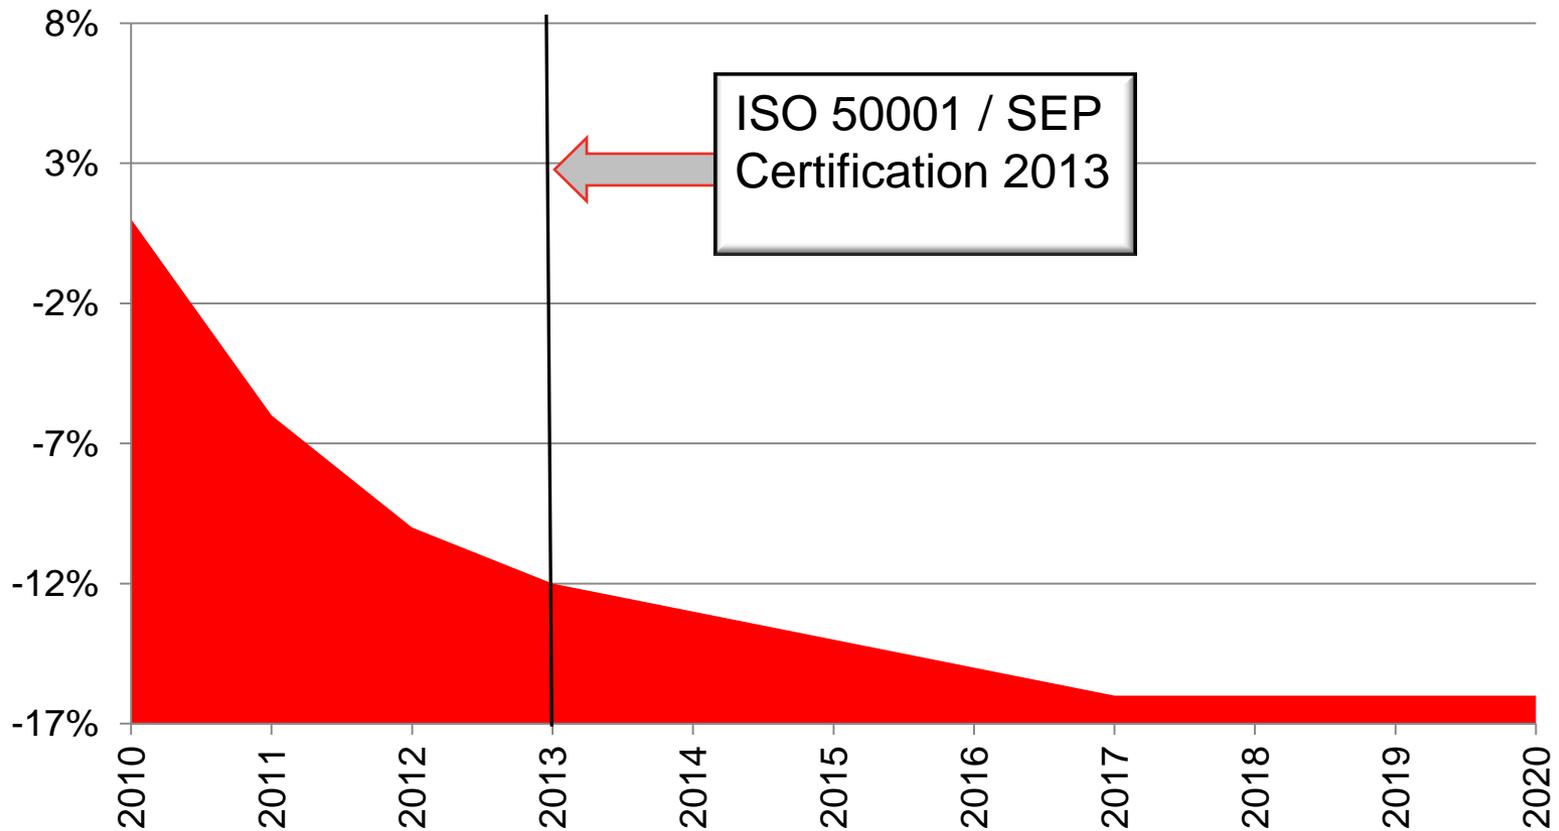

Metering / SEU

ISO 50001

Benefits to Implementing SEP

Provides a tool for communication to Upper Management, customers and employees. SEP makes energy use visible.

RMEP Energy Reduction Glidepath

Benefits to Implementing SEP

Provides a pathway to quantify savings and secure future funding for metering and equipment.

Benefits to Implementing SEP

Next Steps

Case Study

July 2015

Cummins Improves Energy Performance 12.6% with SEP

Cummins Inc.—a global engine manufacturer—worked with the U.S. Department of Energy (DOE) Advanced Manufacturing Office to successfully implement an energy management system (EnMS) that meets all requirements of ISO 50001¹ and Superior Energy Performance[®] (SEP[™]). Cummins' implementation of the EnMS at its Rocky Mount Engine Plant (RMEP) in Rocky Mount, North Carolina, enabled a 12.6% improvement in energy performance, saving over \$700,000 a year.

To achieve corporate energy reduction goals, Cummins Inc.'s natural gas and diesel engine manufacturing facility in Rocky Mount, North Carolina, implemented an energy management system that earned the plant both ISO 50001 and Gold Superior Energy Performance certifications. Photo: Cummins Sustainability Report

- Certify internal auditors
- Assist other facilities within Cummins attempting certification
- Challenges associated with expansion / increase in consumption
- Future Certification Level / Mature Pathway

THANK YOU!

Any Questions?
