I am writing to express strong opposition to the LNG export proposal. The transport of more and more fossil fuels to be burned in any market - foreign or domestic - is a threat to life as we know it. Methane is a powerful greenhouse gas, and increasing its use by export to foreign markets is not in the public interest. We cannot afford to exacerbate climate change in this way.

I and many others have only recently learned about the comment period. Please grant a motion to intervene in these proceedings, so more of the public can have an opportunity to express their deep concerns about this very important matter.

Thank you!

Bouzha
