

(in the Joint Performance ICR) and the aggregate data tables in the revised NRS ICR under OMB Control No. 1830-0027.

This revised NRS ICR contains 17 tables, two of which are required only for States that offer distance education; one optional table; two financial reports; one narrative report; and one data quality checklist. These tables and report forms are included in the document titled "Adult Education and Family Literacy Act (AEFLA) Reporting Tables." States include in the tables all participants in programs (1) that meet the purposes of AEFLA, and (2) for which expenditures are reported on the Federal Financial Report. In June 2016, OMB approved the data collection required by AEFLA (OMB 1830-0027) by approving non-substantive changes that conformed to the performance accountability requirements in WIOA section 116. OCTAE is requesting an extension of this approval, with proposed minor changes in order to obtain a more accurate reporting of participants served in the various AEFLA activities, services, and programs that support the purposes of AEFLA. These minor enhancements will increase the efficiency of the data collection process and ensure the quality of the data that States report.

**AGENCY:** Office of Electricity Delivery and Energy Reliability, DOE.

**ACTION:** Notice of application.

**SUMMARY:** Morgan Stanley Capital Group Inc. (Applicant or MSCG) has applied to renew its authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

**DATES:** Comments, protests, or motions to intervene must be submitted on or before October 27, 2016.

**ADDRESSES:** Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW.,

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On December 7, 2011, DOE issued Order No. EA-184-B to MSCG, which authorized the Applicant to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. That authority expires on December 7, 2016. On September 14, 2016, MSCG filed an application with DOE for renewal of the export authority contained in Order No. EA-184 for an additional five-year term.

In its application, MSCG states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that MSCG proposes to export to Mexico would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.
