Submitter Info

Comment:	<p>From what I can tell these proposals are not in the interest of the public. Rather, they will benefit private corporations at the taxpayers' expense. And, in addition to the financial cost, there are several public health concerns involved. Both the transportation of and storage of the spent nuclear waste could harm the environment and citizens' health. A related concern is that these supposed "interim" sites will effectively be permanent. Given these concerns, I oppose the Private Initiatives for Consolidated Interim Storage Facilities, and request the Department of Energy not grant them. * </p>
