STATOIL NATURAL GAS LLC

FE DOCKET NO. 17-34-LNG

ORDER GRANTING BLANKET AUTHORIZATION TO EXPORT NATURAL GAS TO CANADA AND MEXICO, AND IMPORT LIQUEFIED NATURAL GAS FROM VARIOUS INTERNATIONAL SOURCES BY VESSEL

)

DOE/FE ORDER NO. 4014-A

MAY XX, 2017

I. <u>DESCRIPTION OF REQUEST</u>

On March 20, 2017, Statoil Natural Gas LLC (Statoil) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA),¹ for blanket authorization to export natural gas to Canada and Mexico via pipeline, and to import liquefied natural gas (LNG) from various international sources by vessel, up to a combined total volume equivalent to 1,100 billion cubic feet (Bcf) of natural gas.² The applicant requests the authorization be granted for a two-year term beginning on June 1, 2017.³ Statoil is a Delaware limited liability company with its principal place of business in Stamford, Connecticut.

II. <u>FINDING</u>

The application has been evaluated to determine if the proposed import and/or export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest, and applications for such imports or exports must be granted without modification or delay. The authorization sought by Statoil to import LNG from various international sources by vessel

¹ The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FE in Redelegation Order No. 00-006.02 issued on November 17, 2014.

² DOE/FE issued Order No. 4014 on April 17, 2014. In communications with DOE/FE, Statoil requested additional export authority beyond its initial request. DOE/FE Order No. 4014-A supersedes Order No. 4014 in its entirety by adding the additional export authority requested to the initial export authority granted in Order No. 4014.

³ Statoil's prior blanket authorization to import LNG from various international sources, granted in DOE/FE Order No. 3625 on April 9, 2015, extends through May 31, 2017.

meets the section 3(c) criteria and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

ORDER

Pursuant to section 3 of the NGA, it is ordered that:

A. Statoil is authorized to export natural gas to Canada and Mexico, and to import LNG from various international sources by vessel, up to a combined total volume equivalent to approximately 1,100 Bcf of natural gas, pursuant to transactions that have terms of no longer than two years. This authorization shall be effective for a two-year term beginning on June 1, 2017, and extending through May 31, 2019.

B. This natural gas may be exported by pipeline at any point on the border between the United States and Canada and between the United States and Mexico.

C. This LNG may be imported by vessel to any LNG receiving facility in the United States and its territories.

D. LNG imports that require increased security measures from the United States Coast Guard (USCG) and/or other branches of the Department of Homeland Security in place now or added in the future shall comply with those measures on a shipment by shipment basis to the satisfaction of the USCG. Such measures may include periodic boarding or examination of the vessel by the USCG at the load port, while the vessel is underway, at any time during the voyage, and before and during discharge of the cargo while at the discharge port, as well as other enhanced security measures.

E. **Monthly Reports:** With respect to the natural gas exports authorized by this Order, Statoil shall file with the Office of Regulation and International Engagement, within 30 days following the last day of each calendar month, a report indicating whether exports of natural gas have been made. Monthly reports must be filed whether or not initial deliveries have begun. If no exports have been made, a report of "no activity" for that month must be filed. If exports of natural gas have occurred, the report must give the following details: (1) the country of destination; (2) the point(s) of exit; (3) the volume in thousand cubic feet (Mcf); (4) the average purchase price of gas per million British thermal units (MMBtu) at the international border; (5) the name of the supplier(s); (6) the name of the U.S. transporter(s); and (7) the estimated or actual duration of the supply agreement(s).

If imports of LNG by vessel have occurred, the report must give the following details of each LNG cargo: (1) the name of the U.S. receiving terminal; (2) the name of the LNG tanker; (3) the date of arrival at the U.S. receiving terminal; (4) the country of origin; (5) the name of the supplier/seller; (6) the volume in Mcf; (7) the landed price per MMBtu at the point of import; (8) the duration of the supply agreement (indicate spot purchases); (9) the name(s) of the purchaser(s); and (10) the geographic market served (list State(s), U.S. Census Region(s) or general U.S. geographic areas(s)).

(Approved by the Office of Management and Budget under OMB Control No. 1901-0294)

F. The first monthly report required by this Order is due not later than July 30, 2017, and should cover the reporting period from June 1, 2017, through June 30, 2017.

H. Statoil's blanket authorization granted in DOE/FE Order No. 4014 on April 17, 2017,

is vacated.

Issued in Washington, D.C., on May 25, 2017.
