DOE/FE ORDER NO. 4074

JULY 28, 2017

I. DESCRIPTION OF REQUEST

On July 25, 2017, Repsol Energy North America Corporation (Repsol Energy) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) under section 3 of the Natural Gas Act (NGA)¹ for blanket authorization to import and export natural gas from and to Mexico via pipeline, to import and export liquefied natural gas (LNG) from and to Mexico by truck, and to import and export LNG from and to Mexico by vessel, up to a combined total volume equivalent to 365 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on the date the Order is issued. Repsol Energy is a Texas corporation with its principal place of business in The Woodlands, Texas.

II. FINDING

The application has been evaluated to determine if the proposed import and/or export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest, and applications for such imports or exports must be granted without modification or delay. The authorization sought by Repsol Energy to import and export natural gas from and to Mexico, to import and export LNG from and to Mexico by truck, and to import and export LNG from and to Mexico by vessel—a nation with which a free trade agreement requiring national treatment for

A. Repsol Energy is authorized to import and export natural gas from and to Mexico, to import and export LNG from and to Mexico by truck, and to import and export LNG from and to Mexico by vessel, up to a combined total volume equivalent to 365 Bcf of natural gas, pursuant to transactions that have terms of no longer than two years. This authorization shall be effective for a two-year term beginning on July 28, 2017, and extending through July 27, 2019.

B. This natural gas may be imported and exported by pipeline at any point on the border between the United States and Mexico.
