

DOE Zero Energy Ready Home

October 30, 2017

2017 Housing Innovation Awards Wrap-Up

Awards ceremony recognizes the nation's leading builders!

Earlier this month at the EEBA High Performance Home Summit, the DOE Zero Energy Ready Home program had the pleasure of honoring 24 of the nation's leading builders with the 2017 Housing Innovation Awards. These awards not only recognize these builders for their incredible homes, but also their leadership. "Housing Innovation Award winners are leading a national movement to Zero Energy Ready Homes, providing better places for Americans to live, stronger communities, and a more economically and environmentally resilient nation," said Sam Rashkin.

The 2017 awards year was the most competitive yet, resulting in 26 award winning homes and honoring 11 other applications with "Honorable Mention" status. All Housing Innovation Award winners and Honorable Mention awardees now have their homes featured on the [DOE Tour of Zero](#) for you to learn more about these incredible homes. Winners were chosen from 5 categories, with a Grand Winner selected for each. Below is a lists of all winners and grand winners as well as a list of honorable mentions awardees with links to their Tour of Zero profiles.
