SC Perspective
Including Project Leadership Institute Update

Stephen Meador
Director, Office of Project Assessment
Office of Science
SC Snapshot

• SC Organization Remains Stable
• SC Project Portfolio Remains Stable
• SC Project Performance Remains Good
• SC Priority Projects (Exascale, LCLS II, LBNF/DUNE) Are On Track
• SC Projects Contribute Significantly to the SC Mission
  
  Delivering foundations for new technologies, businesses, and industries, making significant contributions to our nation’s economy, national security, and quality of life

• SC Pilot – Project Leadership Institute (PLI) is well underway...
MISSION

Cultivate a diverse network of successful DOE project delivery practitioners—those capable of delivering major high-risk projects.

The PLI program participants will contribute to building a culture of project management excellence across DOE.

PLI is for all of DOE.

University of Colorado Boulder
The Program

Annually select up to 25 participants from across the DOE complex to take part in a year long development program including participation in a capstone project

- The development program consists of five in person four day events and one online event
  1. Preparing to lead DOE projects – January
  2. Becoming a highly effective leader – March
  3. Positioning the project for success – May
  4. Leadership for strategic execution – online over the summer
  5. Delivering high risk complex projects – August
  6. Navigating to the finish – November

- The capstone project involves creating teams (4 or 5 per team) that focus on developing a report which applies the PLI learning from each event to a case study project. Each capstone team presents their report findings at the final event
2017 Cohort
23 participants from 14 DOE Organizations
2018 Cohort
24 participants from 17 DOE Organizations
