Comment:	People are the ultimate resource, Thriving. Flourish, Promoting Protecting the Earth through Economic Progress . Free and prosperous people are best equipped to address environmental concerns. Human ingenuity, imagination, and creative intelligence are the fuel of progress. History has shown that the environment is best protected when humans prosper. Any environmentalist policy that would drive up the cost of energy, food, or other essential needs in the name of protecting nature must be rejected. Instead, we must pursue constructive policies of political and economic freedom and wise ecological stewardship that will enhance the future of
-----------------	--

the world's people. Time for the environmental community to reconsider the newly re-invented Department of Energy and change from confrontation to cooperation and collaboration. Environmental community should push to build new pipelines, new oil and gas drilling, new mining, We need to get better at advocating restoration by means of logging before fires occur. Department of Energy has been critically hampered by process. Many of the eco-warriors have been unable to come to grips with the consequences of defeat as they see people lives destroyed , and are now reduced to wandering in ghost dances about the old battlefields. From the resource extraction community has come to terms with future possibilities of expressive progress to bring back the good old days when they were in charge of a healthy life for the local communities. Recommend stable and well-defined institutional frameworks and energy professionals for a national gas and oil pipeline systems, backed by the local community; Strong and relatively consistent markets for products; Strong agricultural and forestry institutions and support and delivery systems at national, state and local levels; and Increasing per capita income and other measures of economic strength and diversity that encourage investment in the oil and gas and mining sector and result in citizens who cherish economic beauty of for their land and environmental health. If we want our oil and gas and mining systems restored, we must now disabuse and enlighten the Dept. of energy of the inefficiencies environmental activist helped impose. We must rescue the Dept of Energy by becoming its friend, its ally and its core constituency.... We have at hand an opportunity...to build a new conservation movement and a new Dep. of energy to advance a new central idea of restoring by extraction of oil and gas growth creating a balance with new gas power, new LNG exports and new dams for electric. *🌐
