BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

[OE Docket No. EA–295–C]

Application To Export Electric Energy; Merrill Lynch Commodities, Inc.

**AGENCY:** Office of Electricity.

**ACTION:** Notice of application.

**SUMMARY:** Merrill Lynch Commodities, Inc. (Applicant or MLCI) has applied to renew its authority to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

**DATES:** Comments, protests, or motions to intervene must be submitted on or before July 12, 2019.

**ADDRESSES:** Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, electronic mail to ElectricityExports@hq.doe.gov, or by facsimile to 202–586–8008.

**SUPPLEMENTARY INFORMATION:** The Department of Energy (DOE) regulates exports of electricity from the United States to a foreign country, pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 7172(f)). Such exports require authorization under section 205(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On October 2, 2014, DOE issued Order No. EA–295–B, which authorized MLCI to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing international transmission facilities. That authorization expires on October 5, 2019. On June 3, 2019, MLCI filed an application with DOE for renewal of the export authorization contained in Order No. EA–295–B for an additional five-year term.

In its application, the Applicant states that it does not “own, operate or control any electric power transmission or distribution facilities nor is it affiliated with an entity that owns, operates or controls such facilities in the United States,” that it “does not own, operate or control any electric generation assets, nor is it affiliated with any entity that owns generation assets in the United States,” and that “neither [the Applicant] nor any of its affiliates holds franchise or service territory for the transmission, distribution or sale of electric power.” The electric energy that the Applicant proposes to export to Canada would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

**Procedural Matters:** Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s (FERC) Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five (5) copies of such comments, protests, or motions to intervene should be sent to the address provided above or on or before the date listed above.

Comments and other filings concerning MLCI’s application to export electric energy to Canada should be clearly marked with OE Docket No. EA–295–C. An additional copy is to be provided directly to Merida de la Peña, Merrill Lynch Commodities, Inc., 20 E. Greenway Plaza, Suite 700, Houston, Texas 77046.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE’s National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after DOE determines that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program website at http://energy.gov/node/11945, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Federal Energy Regulatory Commission

[Docket No. EL19-79-000]

Take notice that on June 5, 2019, pursuant to sections 206, 306 and 309 of the Federal Power Act 16 U.S.C. 824e, 825a and 825b and Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 365.206, LSP Transmission Holdings II, LLC, Cardinal Point Electric, LLC and LS Power Midcontinent, LLC (collectively, LS Power or Complainants) filed a formal complaint against Midcontinent Independent System Operator, Inc. (MISO or Respondent) requesting that the Commission direct MISO to make modifications to its transmission planning process, all as more fully explained in the complaint.

A copy of the Complaint was served on the contacts for MISO as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 365.211 and 365.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondents' answers and all interventions, or protests must be filed on or before the 20th day after the publication date. The Respondents' answers, motions to intervene, and protests must be served on the Complainant.

The Commission encourages electronic submissions of protests and interventions in lieu of paper using the "eFiling" link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

This filing is accessible on-line at http://www.ferc.gov, using the eLibrary link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the website that enables subscribers to receive email notification when a document is added to a subscribed docket(s).
