## **1.0 Introduction**

The U.S. Department of Energy (DOE) Office of Legacy Management (LM), established in 2003, manages DOE's responsibilities associated with the closure of World War II and Cold War era sites that the federal government operated to research, produce, and test nuclear weapons and conduct other scientific and engineering research.

The operations that were conducted in this vast network of industrial facilities left a legacy of radioactive and chemical waste, environmental contamination, and hazardous facilities and materials at well over 100 sites. Since 1989, DOE has taken an aggressive accelerated cleanup approach to reduce risks, cut costs, and ensure the protection of human health and the environment. The establishment of LM is part of that approach.

At most DOE sites undergoing cleanup, some residual hazards will remain when cleanup is completed due to financial and technical impracticality. However, DOE still has an obligation to protect human health and the environment after cleanup is completed. LM fulfills DOE's postclosure obligation by providing long-term management of postcleanup sites that do not have continuing missions.

## **2.0 Purpose**

The main purpose of the *Site Management Guide* is to be a reference document for LM and its contractor(s) and to provide accurate and consistent information across the LM organization. The LM *Site Management Guide* coordinator updates the guide annually. The primary data elements of the *Site Management Guide* are the following:

- Site Name and Location (State)
- Pre-LM Name
- Transferring Organization
- Actual Transfer Date [Fiscal Year (FY)]
- Planned Transfer Date (FY)
- Regulatory Drivers and Programmatic Framework
- Site Category

The data elements listed above are under configuration control and cannot be altered without proper approvals. LM manages and controls all *Site Management Guide* changes except changes to data about the Office of Environmental Management (EM) Closure Sites transferring to LM. Such changes require joint approval by EM-1 and LM-1.

## **3.0 Regulatory Drivers and Programmatic Framework**

Regulatory drivers are statutes or programs that direct cleanup and management requirements at DOE sites. LM currently manages sites with diverse regulatory drivers or as part of internal DOE or congressionally-recognized programs.

Regulatory drivers include the following:

- Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
- Resource Conservation and Recovery Act (RCRA)
- Uranium Mill Tailings Radiation Control Act (UMTRCA) Title I
- UMTRCA Title II
- Nuclear Waste Policy Act (NWPA) Section 151
- State Water Quality Standards

Additional sites were remediated and LM manages them today under the following programmatic frameworks:

- The Formerly Utilized Sites Remedial Action Program (FUSRAP)
- The DOE Decontamination and Decommissioning (D&D) Program
- The Nevada Offsites
- Manhattan Engineer District/Atomic Energy Commission (MED/AEC) Legacy Sites
- Plowshare/ Vela Uniform Program Sites

CERCLA/RCRA sites were radiologically or chemically contaminated by federal milling, processing, research, or weapons-manufacturing operations. Once remediation is completed, LM becomes responsible for long-term management. UMTRCA Title I sites are associated with former privately operated uranium ore-processing locations. The remediation of these sites created 19 disposal sites that contain encapsulated uranium mill tailings and associated contaminated materials. UMTRCA Title II sites formerly were commercially owned and are regulated under a U.S. Nuclear Regulatory Commission (NRC) license. For license termination, the owner must conduct an NRC-approved cleanup of any on-site radioactive waste remaining from former uranium ore-processing operations. The site owner must also provide funding to offset some of the costs of site transition to LM and post-transfer long-term surveillance and maintenance. One site was remediated under Section 151 of the Nuclear Waste Policy Act, which contains provisions for transferring privately owned disposal sites to the federal government if the site activities were conducted for the benefit of the government. The NRC is the regulator for this site as well. Finally, LM manages one site that was remediated under State Water Quality Standards. Cleanup was regulated by the Colorado River Basin Regional Water Quality Control Board (CRWQCB), A California state agency, under the Waste Discharge Requirement Order of 1989.

Programmatic framework sites include the FUSRAP sites where the U.S. Army Corps of Engineers (USACE) is responsible for site surveys and remediation before they are eventually transferred to LM for post-closure care. FUSRAP was initiated in 1974 to identify, investigate and clean up or control sites throughout the United States that were contaminated as a result of the nation's early atomic weapons and energy programs. D&D sites were remediated under DOE orders or applicable environmental protection laws. They include experimental reactors or locations where nuclear energy research was carried out. The Nevada Offsites are locations in the continental U.S. where underground nuclear tests were conducted or sites that were evaluated for such tests that are located off of the Nevada National Security Site (formerly the Nevada Test Site). Individual Offsites have been remediated under a variety of frameworks, including Federal Facility Agreements and Consent Orders (FFACO) and voluntary cleanup programs with states. MED/AEC legacy sites are sites that were associated with the program during World War II by the U.S. to produce the first nuclear weapons as well as AEC sites

associated with early weapons development. Plowshare/ Vela Uniform Program Sites are sites where nonnuclear tests were conducted or where nuclear tests were cancelled after some activities had occurred. Most of the sites are records only sites, but some additional investigations are being completed to determine whether there are outstanding liabilities from AEC operations.

## 4.0 Site Categories

The long-term management of each LM site is designated as one of three categories based on the actual or anticipated long-term surveillance and maintenance (LTS&M) activities associated with that site. The site category indicates the level of LTS&M activities that are expected for each site:

- **Category 1** activities typically include records-related activities and stakeholder support.
- **Category 2** activities typically include routine inspection (any site visit needed to verify the integrity of engineered or institutional barriers) and monitoring/maintenance, records-related activities, and stakeholder support.
- **Category 3** activities typically include operation and maintenance of active remedial action systems, routine inspection (any site visit needed to verify the integrity of engineered or institutional barriers) and monitoring/maintenance, records-related activities, and stakeholder support.

**Note:** For sites that have multiple categories, the overall category designation will always be the highest of all categories listed for that site. For example: The Salt Lake City, Utah, Disposal/Processing Site is currently counted as one site, but it has two category designations. The Salt Lake City, Utah, Processing Site (mill site) is a category 1 site, and the Salt Lake City, Utah, Disposal Site is a category 2 site. For reporting purposes, this site will have an overall category designation as a category 2 site.

LM also maintains a Transitioning Sites category, which consists of sites that will transfer to LM within the next 5 years. LM often conducts site-specific activities to prepare a site for acceptance into the LM program. Although the date that a new site officially becomes LM's responsibility is important, LM is conducting due diligence by working on sites as much as 5 years ahead of transition dates. Important transition activities can include developing LTS&M plans, which, depending on the authorities under which the site has undergone remediation, may require approval by regulators such as the NRC or the U.S. Environmental Protection Agency (EPA). Other transition responsibilities include identifying and preserving records, and ascertaining that real property instruments, such as administrative institutional controls, are in place. The designation of when transition activities begin at a site will help LM better align its budget formulation, life-cycle planning, and staffing with when work actually begins at future LM sites. As each site in the *Transitioning Sites* category is formally transferred to LM, it is officially designated as a category 1, 2, or 3 site.

## 5.0 Site Counts

The *Site Management Guide* is the control document for all site count information. The manner in which sites are counted is critical for ensuring that LM provides accurate and consistent site

count data. It has been determined that each geographic site location will be counted as one site. This includes geographic site locations having both a former processing site and an associated disposal site. These types of sites will also be counted as one site.

**Note:** The only exceptions to the site count guidance are two FUSRAP sites in Berkeley, Missouri (Berkeley Site and Berkeley Site Vicinity Properties), and the two FUSRAP sites in Niagara Falls, New York (Niagara Falls Storage Site and Niagara Falls Storage Site Vicinity Properties). These four FUSRAP sites are currently counted as four sites because USACE manages them as four separate sites.

The following are examples of UMTRCA sites that have both a former processing site and an associated disposal site:

- **These two Gunnison, Colorado, sites count as one site:**
  - 1) Gunnison, Colorado, Disposal Site
  - 2) Gunnison, Colorado, Processing Site
  
- **These three Rifle, Colorado, sites count as one site:**
  - 1) Rifle, Colorado, Processing (New) Site
  - 2) Rifle, Colorado, Processing (Old) Site
  - 3) Rifle, Colorado, Disposal Site

## 6.0 Site Nomenclature

The names of many sites that transfer to the LM program are confusing and non-descriptive. In many cases sites have names using the company name of the former site operator or using a geographic name or nickname. LM has established the following guidelines for naming or identifying sites within LM to eliminate confusion when trying to identify sites and site locations:

- Eliminate use of company names of current or former operators or property owners.
- When possible, name a site by using the name of the nearest city or town. If multiple sites exist near the same city or town, use a direction name (North, South, East, West) following the city or town name.

**Note:** LM will receive a few sites that do not have a city or town near the site to use as the site name. In these cases, the sites will retain the current pre-LM name.

**Example:** There are no cities or towns near the Salmon, Mississippi, Site. “Salmon” is the project name of the site and is not referencing a geographic location; therefore, the Salmon, Mississippi, Site retains the pre-LM site name.

FUSRAP sites not yet transferred to LM retain their USACE name (as shown under the Pre-LM Name column in Appendix B). Upon transfer, site names will be changed in accordance with LM site nomenclature.

Be aware that LM has revised several site names for sites that have not yet transferred to LM (mainly associated with UMTRCA Title II sites) for internal management purposes. Until a site officially transfers to LM, the original (pre-LM) site name will be referenced in all outside reporting and data sharing.

Appendixes A and B include pre-LM and LM site names for ease in cross-referencing.

- The name should also include the state in which the site is geographically located.
- When applicable the site name should include additional information about the site, such as processing, disposal, or decommissioned reactor. See Example:

Maybell, Colorado, Disposal Site  
Maybell West, Colorado, Disposal Site

## 7.0 Site Transition Policy

This section references the following site transition policy documents:

**Terms and Conditions Between EM and LM** – This document outlines proposed terms and conditions for managing and funding site transition activities between EM and LM. The *Terms and Conditions for Site Transition – February 2005* document is available at the following web address:

<http://energy.gov/lm/guidance-reports-and-documents>

**Site Transition Plan Guidance** – This document provides guidance for the development of site transition plans. The *Site Transition Plan Guidance* document is available at the following web address:

<http://energy.gov/lm/guidance-reports-and-documents>

**Records and Information Management Transition Guide** – This guidance document establishes a framework for developing a Records and Information Management Transition Plan as part of the overall transition effort for a legacy site. The *LM Records and Information Management Transition Guide* document is available at the following web address:

<http://energy.gov/lm/downloads/lm-records-and-information-management-transition-guidance-may-2016>

**Site Transition Framework** – This document provides a framework for all DOE facilities and sites where DOE may have anticipated LTS&M responsibilities. The *Site Transition Framework for Long-Term Surveillance and Maintenance* document is available at the following web address:

<http://energy.gov/lm/guidance-reports-and-documents>

**Site Transition Process Upon Cleanup Completion** – This two-page fact sheet outlines LM's policy on various aspects of site transition. The *Site Transition Process Upon Cleanup Completion* document is available at the following web address:

<http://energy.gov/lm/guidance-reports-and-documents>

**Site-Specific Fact Sheets** – These fact sheets for sites that have transferred to LM cover the following topics: key milestones, site condition at the time of transfer, transition issues, and information about the management and mitigation of programmatic risk. Site-specific information is available from the respective LM site manager and at the following web address:

<http://energy.gov/lm/sites/lm-sites>

## 8.0 Interrelationship of Site Management Guide Data

All LM federal and contractor staff should abide by the *Site Management Guide* because of the interrelationship and interdependency among site count data and other LM products, processes, and systems.

---

Looking at the LM Program and the core functions of planning, budget formulation, budget execution, and evaluation, site count data is a major part of many products. The following are just a few of the products that require current and accurate site count data:

- LM Strategic Plan
- Budget Formulation
- Life-Cycle Planning
- Environmental Liability Estimates
- DOE Performance Measure Management System

LM staff should use the *Site Management Guide* as the source document when preparing or releasing site count information for DOE data calls or to transferring organizations. All changes or questions associated with the data in this guide should be addressed to the LM *Site Management Guide* coordinator.

## 9.0 Appendixes

The *Site Management Guide* site data are presented in the following appendixes. In each appendix, changes from the previous update are shown in red font.

**Appendix A** – Current LM Site Count Listing: This appendix lists the sites in the LM Program.

**Appendix B** – Site Transition Schedule: This appendix lists the sites that are scheduled to transfer to LM from FY 2020 through FY 2050.

**Appendix C** – Transitioning Sites Category: This appendix is a list of sites scheduled to transfer to LM within the next five years.

**Appendix D** – Planned Site Count by Year: This appendix shows the number of sites currently in the LM Program combined with sites that are scheduled to transfer to LM over the next ten years.

**Appendix E** – Current Site Count by State: This appendix is a table of sites currently in the LM Program, listed by state and site category.

**Appendix F** – LM Site Maps: This appendix contains two maps, a map of sites currently in the LM Program and a map of the anticipated sites through FY 2030.

**Appendix G** – Site Count by Regulatory Driver/Programmatic Framework and Site Category: This appendix is a chart of sites currently in the LM Program listed by Regulatory Driver/Programmatic Framework and site category.

**Appendix H**– Site Information Summary: This appendix provides a summary of sites that are being managed under LTS&M. It consists of commonly used data points from the DOE Office of Legacy Management Site Overview report (number of wells, number of disposal cells, and institutional controls) and is grouped by Regulatory Driver/Programmatic Framework. The sites are counted as outlined in Section 5.0 above. The summary shows data for the prior year and the

current year. The site-specific information supporting the summary is reviewed and updated annually by DOE and contractor site managers.

**Appendix I – Land Having Legacy Management:** This appendix is a chart displaying acreage totals for non-DOE-owned sites/land with rights to conduct activities, DOE-owned (fee simple) land, and withdrawn land (For more information, see the DOE Office of Legacy Management Site Overview report).

**Appendix J – Environmental Liabilities:** This appendix is a summary of the 75-year constant dollar totals for LM sites and sites scheduled to transfer to LM.

**Appendix K– Abbreviations:** This appendix is a list of abbreviations used in the *Site Management Guide*.

## Appendix A: Current LM Site Count Listing

### LM Site Count Listing Through **September 30, 2019**

	LM Site Name	Pre-LM Name <sup>1</sup>	Site Category	Regulatory Driver/ Programmatic Framework	Fiscal Year Transfer Date <sup>1</sup>
1	Acid/Pueblo Canyon, NM, Site	Acid/Pueblo Canyon	1	FUSRAP	1985
2	Adrian, MI, Site	General Motors	1	FUSRAP	1996
3	Albany, OR, Site	Albany Research Center	1	FUSRAP	1993
4	Aliquippa, PA, Site	Aliquippa Forge	1	FUSRAP	1997
5	Ambrosia Lake, NM, Disposal Site	Ambrosia Lake	2	UMTRCA Title I	1998
6	Amchitka, AK, Site	Amchitka Island	2	Nevada Offsites	2008
7	Ashtabula, OH, Site	Ashtabula Closure Project	1	MED/AEC Legacy Site	2010
8	Attleboro, MA, Site	Shpack Landfill	2	FUSRAP	2019
9	Bayo Canyon, NM, Site	Bayo Canyon	2	FUSRAP	1984
		Bayo Canyon Technical Area-10		CERCLA/RCRA	2019
10	Berkeley, CA, Site	University of California (Gilman Hall)	1	FUSRAP	1985
11	Beverly, MA, Site	Ventron Corporation	1	FUSRAP	2004
12	Bluewater, NM, Disposal Site	Bluewater Site	2	UMTRCA Title II	1997
13	BONUS, PR, Decommissioned Reactor Site	BONUS Reactor	2	D&D	2004
14	<b>Bronco, CO, Site</b>	<b>Bronco</b>	<b>2</b>	<b>Plowshare/Vela Uniform Program</b>	<b>2019</b>
15	Buffalo, NY, Site	Bliss and Laughlin Steel Company	1	FUSRAP	2002
16	Burrell, PA, Disposal Site	Burrell Site	2	UMTRCA Title I	1994
17	Burriss Park, CA, Site	Burriss Park Field Station	2	MED/AEC Legacy Site	2015
18	Canonsburg, PA, Disposal Site	Canonsburg Site	2	UMTRCA Title I	1996
19	Center for Energy and Environmental Research, PR, Site	Rio Piedras Site	1	MED/AEC Legacy Site	2006
		Mayaguez Site			
20	Central Nevada Test Area, NV	Central Nevada Test Area	2	Nevada Offsites	2008

100	Windsor, CT, Site	Combustion Engineering Site	1	FUSRAP	2019
<b>Total</b>					<b>100</b>

**Notes:**

<sup>1</sup> FUSRAP Pre-LM Names per USACE and Fiscal Year Transfer Dates per Federal Register notice of cleanup certification or DOE certification.

## Appendix B: Site Transition Schedule

### Sites Planning to Transition in FY 2020

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Tonopah Test Range, NV, Site	Corrective Action Units; 411 (Nellis), 412 (TTR), 413 (TTR) and 414 (TTR)	2	EM	Nevada Offsites
<b>Total</b>					<b>1</b>
<b>Cumulative</b>					<b>101</b>

### Sites Planning to Transition in FY 2021

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Elemental Mercury Storage Facility	Mercury Storage Facility	3	EM	CERCLA/RCRA
<b>Total</b>					<b>1</b>
<b>Cumulative</b>					<b>102</b>

### Sites Planning to Transition in FY 2022

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Durita, CO, Disposal Site	HECLA – Durita Site	2	Private Licensee	UMTRCA Title II
2	East Tennessee Technology Park, TN, Site <sup>3</sup>	East Tennessee Technology Park	2	EM	CERCLA/RCRA
3	Gas Hills East, WY, Disposal Site	UMETCO – Gas Hills Site	2	Private Licensee	UMTRCA Title II
4	Gas Hills North, WY, Disposal Site <sup>1</sup>	Pathfinder – Lucky Me Site	2	Private Licensee	UMTRCA Title II
5	Panna Maria, TX, Disposal Site	Chevron – Panna Maria Site	2	Private Licensee	UMTRCA Title II
6	Ray Point, TX, Disposal Site	Exxon Mobil – Ray Point Site, Felder Site	2	Private Licensee	UMTRCA Title II
7	Split Rock, WY, Disposal Site	WNI – Split Rock Site	2	Private Licensee	UMTRCA Title II
<b>Total</b>					<b>7</b>
<b>Cumulative</b>					<b>109</b>

### Sites Planning to Transition in FY 2023

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Bear Creek, WY, Disposal Site <sup>1</sup>	Anadarko Petroleum – Bear Creek Site	2	Private Licensee	UMTRCA Title II
2	Hazelwood, MO, Site	Latty Avenue Properties	3	USACE	FUSRAP
<b>Total</b>					<b>2</b>
<b>Cumulative</b>					<b>111</b>

### Sites Planning to Transition in FY 2024

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Curtis Bay, MD, Site	W.R. Grace at Curtis Bay Site	2	USACE	FUSRAP
2	Deepwater, NJ, Site	DuPont Chambers Works	2	USACE	FUSRAP
3	Highland, WY, Disposal Site	Exxon Mobil – Highland Site	2	Private Licensee	UMTRCA Title II
4	Lisbon Valley, UT, Disposal Site	Rio Algom – Lisbon Valley Site	2	Private Licensee	UMTRCA Title II
5	Middlesex South, NJ, Site <sup>2</sup>	Middlesex Sampling Plant	2	USACE	FUSRAP
6	Middletown, IA, Site	Iowa Army Ammunition Plant	2	USACE	FUSRAP
7	Tonawanda, NY, Landfill Site	Tonawanda Landfill	2	USACE	FUSRAP
<b>Total</b>					<b>7</b>
<b>Cumulative</b>					<b>118</b>

### Sites Planning to Transition in FY 2025

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Ambrosia Lake West, NM, Disposal Site	Rio Algom – Ambrosia Lake Site 2	2	Private Licensee	UMTRCA Title II
2	Conquista, TX, Disposal Site	Conoco – Conquista Site	2	Private Licensee	UMTRCA Title II
3	Gas Hills West, WY, Disposal Site	ANC – Gas Hills Site	2	Private Licensee	UMTRCA Title II
4	Sequoyah County, OK, Disposal Site	Sequoyah Fuels Site	2	Private Licensee	UMTRCA Title II
5	Uravan, CO, Disposal Site	UMETCO – Uravan Site	2	Private Licensee	UMTRCA Title II
<b>Total</b>					<b>5</b>
<b>Cumulative</b>					<b>123</b>

## Appendix B: Site Transition Schedule (continued)

### Sites Planning to Transition in FY 2026

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Ford, WA, Disposal Site	Dawn – Ford Site	2	Private Licensee	UMTRCA Title II
2	Maywood, NJ, Site <sup>2</sup>	Maywood Chemical Superfund Site	2	USACE	FUSRAP
3	St. Louis, MO, Site	St. Louis Downtown Site	3	USACE	FUSRAP
<b>Total</b>					<b>3</b>
Cumulative					<b>126</b>

### Sites Planning to Transition in FY 2027

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Church Rock, NM, Disposal Site	General Electric/United Nuclear Corporation – Church Rock Site	2	Private Licensee	UMTRCA Title II
2	Grants, NM, Disposal Site	Homestake – Grants Site	2	Private Licensee	UMTRCA Title II
<b>Total</b>					<b>2</b>
Cumulative					<b>128</b>

**Sites Planning to Transition in FY 2028** There are no sites planned for transition.

**Sites Planning to Transition in FY 2029** There are no sites planned for transition.

**Sites Planning to Transition in FY 2030** There are no sites planned for transition.

### Sites Planning to Transition in FY 2031

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Tonawanda North, NY, Site Unit 3	Seaway Industrial Park	2	USACE	FUSRAP
<b>Total</b>					<b>1</b>
Cumulative					<b>129</b>

### Sites Planning to Transition in FY 2032

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Energy Technology Engineering Center, CA, Site	Energy Technology Engineering Center	1	EM	MED/AEC Legacy Site
<b>Total</b>					<b>1</b>
Cumulative					<b>130</b>

### Sites Planning to Transition in FY 2033

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Luckey, OH, Site	Luckey Site	2	USACE	FUSRAP
<b>Total</b>					<b>1</b>
Cumulative					<b>131</b>

**Sites Planning to Transition in FY 2034** There are no sites planned for transition.

### Sites Planning to Transition in FY 2035

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework
1	Moab, UT, Disposal/Processing Site	Atlas – Moab Mill	3	EM	UMTRCA Title I
		Crescent Junction Disposal Cell			
<b>Total</b>					<b>1</b>
Cumulative					<b>132</b>

## Appendix B: Site Transition Schedule (continued)

### Sites Planning to Transition in FY 2036 – 2050

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework	Planned Transfer
1	Berkeley, MO, Site	St. Louis Airport Site	3	USACE	FUSRAP	2038
2	Berkeley, MO, Site Vicinity Properties	St. Louis Airport Site Vicinity Properties	3	USACE	FUSRAP	2038
3	Carnegie, PA, Site <sup>4</sup>	Superior Steel	2	USACE	FUSRAP	2038
4	Cleveland, OH, Site <sup>4</sup>	Harshaw Chemical Company	2	USACE	FUSRAP	2038
5	Ft. Wayne, IN, Site <sup>4</sup>	Joslyn Manufacturing and Supply Company	2	USACE	FUSRAP	2038
6	Hicksville, NY, Site <sup>4</sup>	Sylvania Corning Plant	2	USACE	FUSRAP	2038
7	Lockport, NY, Site <sup>4</sup>	Guterl Specialty Steel	2	USACE	FUSRAP	2038
8	Middlesex North, NJ, Site <sup>4</sup>	Middlesex Municipal Landfill	2	USACE	FUSRAP	2038
9	Niagara Falls Storage Site, NY, Site <sup>2,4</sup>	Niagara Falls Storage Site (includes VPs E, E Prime, G and H Prime)	2	USACE	FUSRAP	2038
10	Parks Township, PA, Site <sup>4</sup>	Shallow Land Disposal Area	2	USACE	FUSRAP	2038
11	West Valley, NY, Site	West Valley Demonstration Project	2	EM	CERCLA/RCRA	2040
12	Portsmouth, OH, Site	Portsmouth Gaseous Diffusion Plant	2	EM	CERCLA/RCRA	2044
13	Cañon City, CO, Disposal Site	Cotter – Canon City Site	2	Private Licensee	UMTRCA Title II	2047
14	Paducah, KY, Site	Paducah Gaseous Diffusion Plant	2	EM	CERCLA/RCRA	2047
15	Salt Lake City 11e.(2), UT, Disposal Site	11e(2) Disposal Site	2	Private Licensee	UMTRCA Title II	2047
16	Shirley Basin North, WY, Disposal Site	Pathfinder – Shirley Basin Site 2	2	Private Licensee	UMTRCA Title II	2047
17	Shootaring Canyon, UT, Disposal Site	Plateau Shootaring Canyon Site	2	Private Licensee	UMTRCA Title II	2047
18	Sweetwater, WY, Disposal Site	Kennecott Sweetwater Site	2	Private Licensee	UMTRCA Title II	2047
19	White Mesa, UT, Disposal Site	EFN – White Mesa Site	2	Private Licensee	UMTRCA Title II	2047
20	Andrews 11e.(2), TX, Disposal Site	Waste Control Specialists 11e.(2) Disposal Cell	2	Private Licensee	UMTRCA Title II	2050
Total					20	
<b>Cumulative</b>					<b>152</b>	

### FUSRAP Sites Referred from DOE to USACE – Not Currently Designated by USACE For Active Status

	LM Site Name	Pre-LM Name	Site Category	Transferring Organization	Regulatory Driver/ Programmatic Framework	Planned Transfer
1	Niagara Falls Storage Site Vicinity Property X	Niagara Falls Storage Site Vicinity Property X	1	USACE	FUSRAP	2038
2	Painesville Landfills III and V, OH, Sites	Painesville Landfills III and V	1	USACE	FUSRAP	2038
3	Queens, NY, Site <sup>4</sup>	Wolf Alport Chemical Company	1	USACE	FUSRAP	2038
4	Staten Island, NY, Site <sup>4</sup>	Staten Island Warehouse	1	USACE	FUSRAP	2038

#### Notes:

- <sup>1</sup> The fee land and wells for the Bear Creek and Gas Hills North, WY Sites have transferred to DOE, but the Title II private license has not been terminated. These sites will formally transfer to DOE after NRC concurs that remedial action has been completed and accepts the site-specific long-term surveillance plan. After which, the sites will be administered under the NRC general license for long-term care.
- <sup>2</sup> The DOE Office of Legacy Management is the owner of record at the following FUSRAP sites: Maywood, NJ; Middlesex South, NJ; and Niagara Falls, NY. LM shall accept responsibility for all federally-owned real property and interests therein, acquired by USACE for FUSRAP execution at the time of site closeout (i.e., public declaration of completion). Long-term surveillance and maintenance responsibilities shall transfer to LM two years after site closeout. Fiscal year transition date to LM is triggered by the site closeout event.
- <sup>3</sup> The K-25 slab at the East Tennessee Technology Park, TN, Site will transfer in FY2022. The remainder of the site will transition in FY2025.
- <sup>4</sup> Completion date assumed to be FY 2038 for planning purposes. Actual remedial action completion date not yet determined by USACE.

## Appendix C: Transitioning Sites Category

### BY END OF FISCAL YEAR

LM Site Name	Site Category	Regulatory Driver/Programmatic Framework	Planned				
			2020	2021	2022	2023	2024
Tonopah Test Range, NV Site	2	Nevada Offsites	X				
Elemental Mercury Storage Facility	3	CERCLA/RCRA		X			
Durita, CO, Disposal Site	2	UMTRCA Title II			X		
East Tennessee Technology Park, TN, Site	2	CERCLA/RCRA			X		
Gas Hills East, WY, Disposal Site	2	UMTRCA Title II			X		
Gas Hills North, WY, Disposal Site	2	UMTRCA Title II			X		
Panna Maria, TX, Disposal Site	2	UMTRCA Title II			X		
Ray Point, TX, Disposal Site	2	UMTRCA Title II			X		
Split Rock, WY, Disposal Site	2	UMTRCA Title II			X		
Bear Creek, WY, Disposal Site	2	UMTRCA Title II				X	
Hazelwood, MO, Site	3	FUSRAP				X	
Curtis Bay, MD, Site	2	FUSRAP					X
Deepwater, NJ, Site	2	FUSRAP					X
Highland, WY, Disposal Site	2	UMTRCA Title II					X
Lisbon Valley, UT, Disposal Site	2	UMTRCA Title II					X
Middlesex South, NJ, Site2	2	FUSRAP					X
Middletown, IA, Site	2	FUSRAP					X
Tonawanda, NY, Landfill Site	2	FUSRAP					X
<b>Total</b>			<b>1</b>	<b>1</b>	<b>7</b>	<b>2</b>	<b>7</b>

**Notes:**

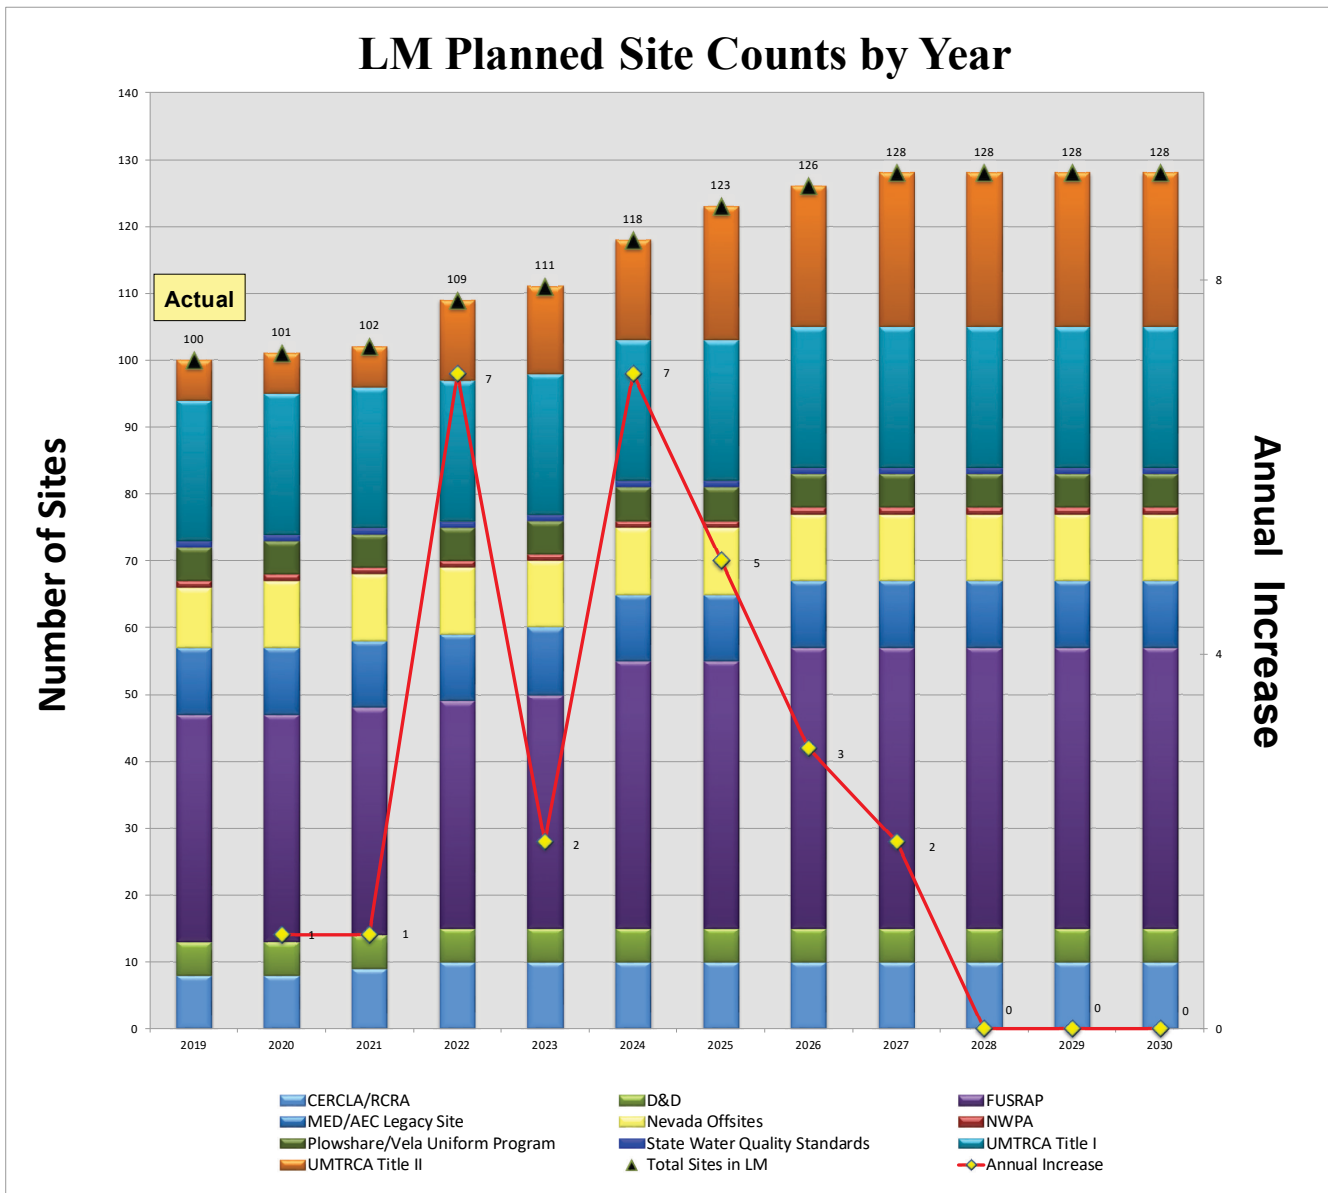

Includes sites planned for transfer to LM within the next five years.

As these sites officially transfer to LM, they will then be designated as a category 1, 2, or 3 site based on expected LTS&M activities.

## Appendix F: LM Site Maps (continued)

### Anticipated LM Site Map through FY 2030 as of **September 30, 2019**

Note: Map is only a representation and may not be to actual scale.

#### Anticipated Sites in LM Through FY 2030 Requiring LTS&M

- |             |                                |                               |                     |                 |
|-------------|--------------------------------|-------------------------------|---------------------|-----------------|
| CERCLA/RCRA | D&D                            | FUSRAP                        | MED/AEC Legacy Site | Nevada Offsites |
| NWPAs       | Plowshare/Vela Uniform Program | State Water Quality Standards | UMTRCA Title I      | UMTRCA Title II |

#### Site Categories

- Category 1** activities typically include records-related activities and stakeholder support
- Category 2** activities typically include routine inspection (any site visit needed to verify the integrity of engineered or institutional barriers) and monitoring/maintenance, records-related activities, and stakeholder support
- Category 3** activities typically include operation and maintenance of active remedial action systems, routine inspection (any site visit needed to verify the integrity of engineered or institutional barriers) and monitoring/maintenance, records-related activities, and stakeholder support

#### Site Name and Transfer Date (FY)

- |   |   |
|---|---|
| (1) Acid/Pueblo Canyon, NM (1985)                             | (68) Pinellas County, FL (2004)                             |

## Appendix G: Site Count by Regulatory Driver/Programmatic Framework and Site Category

Sites by Regulatory Driver/Programmatic Framework	Actual Through September 2019
CERCLA/RCRA	8
D&D	5
FUSRAP	34
MED/AEC Legacy Site	10
Nevada Offsites	9
NWPA	1
Plowshare/Vela Uniform Program	5
State Water Quality Standards	1
UMTRCA Title I	21
UMTRCA Title II	6
<b>TOTAL</b>	<b>100</b>

Sites by Category	Actual Through September 2019
Category 1	42
Category 2	49
Category 3	9
<b>TOTAL</b>	<b>100</b>

**Category 1:** Activities typically include records-related activities and stakeholder support.

**Category 2:** Activities typically include routine inspection (any site visit needed to verify the integrity of engineered or institutional barriers) and monitoring/maintenance, records-related activities, and stakeholder support.

**Category 3:** Activities typically include operation and maintenance of active remedial action systems, routine inspection (any site visit needed to verify the integrity of engineered or institutional barriers) and monitoring/maintenance, records-related activities, and stakeholder support.

## Appendix H: Site Information Summary

### Site Information Summary **as of September 30, 2019**

Regulatory Driver/Programmatic Framework	Number of Sites		Number of DOE Wells Associated with Site		Number of Disposal Cells, Landfills, and other Impoundments		Institutional Controls (Yes or No)	
	May-19	Sep-19	May-19	Sep-19	May-19	Sep-19	May-19	Sep-19
CERCLA/RCRA Sites	8	8	969	969	5	5	Yes (7 sites)	Yes (7 sites)
D&D Sites	5	5	44	44	3	3	Yes (5 sites)	Yes (5 sites)
FUSRAP Sites	33	34	0	0	0	0	Yes (2 sites)	Yes (2 sites)
MED/AEC Legacy Site	10	10	0	0	0	0	Yes (1 site)	Yes (1 site)
Nevada Offsites	9	9	79	79	9	9	Yes (8 sites)	Yes (8 sites)
NWPA	1	1	6	6	1	1	Yes (1 site)	Yes (1 site)
Plowshare/Vela Uniform Program	0	5	0	0	0	0	No	No
State Water Quality Standards	1	1	0	0	0	0	No	No
UMTRCA Title I Sites	21	21	914	914	19	19	Yes (21 sites)	Yes (21 sites)
UMTRCA Title II Sites	6	6	46	46	7	7	Yes (6 sites)	Yes (6 sites)
<b>TOTALS</b>	<b>94</b>	<b>100</b>	<b>2,058</b>	<b>2,058</b>	<b>44</b>	<b>44</b>	<b>Yes (51 sites)</b>	<b>Yes (51 sites)</b>

Comparison of last reporting period (May 31, 2019) to data through September 30, 2019.

## Appendix I: Land Having Legacy Management

### Sites with LTS&M Activities **as of September 30, 2019**

**DOE-Owned (Fee Simple)**

Withdrawn (Includes 25,138 acres withdrawn for uranium/vanadium mineral development and mining, of which roughly 260 acres have been affected by DOE’s mineral-leasing activities. The U.S. Bureau of Land Management manages all other surface uses of these lands.)

Non-DOE-Owned Site/Land with Rights to Conduct Activities (e.g., environmental monitoring, maintenance, inspections)

**Note:**

The fee land and wells for the Bear Creek and Gas Hills North, WY, sites have transferred to DOE, but the Title II private license has not been terminated. These sites are not yet under the DOE general license.

LM is the owner of record at the following FUSRAP sites: Maywood, NJ; Middlesex South, NJ; and Niagara Falls Storage Site, NY. The USACE is responsible for protectiveness at these sites until remedial action is completed and LM assumes LTS&M responsibility for the sites.

## Appendix J: Environmental Liabilities

### Environmental Liabilities as of 2018

Regulatory Driver/ Programmatic Framework	75-Year Constant Dollar Total
CERCLA/RCRA Sites	\$1,148,926,930
D&D Sites	\$9,930,171
FUSRAP Sites	\$14,739,667
MED/AEC Legacy Sites	\$2,488,234
Nevada Offsites	\$89,974,624
NWPA	\$5,989,331
State Water Quality Standards	\$0
UMTRCA Title I Sites	\$381,161,977
UMTRCA Title II Sites	\$48,638,626
Transitioning Sites	\$578,632,568
<b>Total</b>	<b>\$2,280,482,128</b>

**Note:** Constant dollar totals from FY 2018 Environmental Liability reporting for LM Goal 1 sites and sites planned for transition. Costs for LTS&M support activities and other regulatory agreements are not included.

## Appendix K: Abbreviations

AEC	Atomic Energy Commission
CERCLA	Comprehensive Environmental Response, Compensation, and Liability Act
D&D	Decontamination and Decommissioning
DOE	U.S. Department of Energy
EM	Office of Environmental Management
EPA	U.S. Environmental Protection Agency
FFACO	Federal Facility Agreements and Consent Orders
FUSRAP	Formerly Utilized Sites Remedial Action Program
FY	Fiscal Year
ICs	Institutional Controls
LM	Office of Legacy Management
LTS&M	Long-Term Surveillance and Maintenance
MED	Manhattan Engineer District
NRC	U.S. Nuclear Regulatory Commission
NWPA	Nuclear Waste Policy Act
RCRA	Resource Conservation and Recovery Act
UMTRCA	Uranium Mill Tailings Radiation Control Act
USACE	U.S. Army Corps of Engineers
VPs	Vicinity Properties
