DOE/FE ORDER NO. 4518

MARCH 25, 2020

I. DESCRIPTION OF REQUEST

On March 9, 2020, Prometheus Energy Group, Inc. (Prometheus Energy Group) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) under section 3 of the Natural Gas Act (NGA)¹ for blanket authorization to import and export liquefied natural gas (LNG) from and to Canada and Mexico by truck, to export LNG to Canada and Mexico by vessel, and to import LNG from various international sources by vessel in a combined total of 75 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on April 5, 2020.² Prometheus Energy Group is a Delaware corporation with its principal place of business in Houston, Texas.

II. FINDING

The application has been evaluated to determine if the proposed import and export arrangements meet the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest, and applications for such imports or exports must be granted without modification or delay. The authorization sought by Prometheus Energy Group to import and export LNG by truck from and to Canada and Mexico, nations with which free trade agreements requiring national treatment for trade in natural gas are in effect, to export LNG by vessel to Canada and Mexico, and to import

¹ The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. §717b) has been delegated to the Assistant Secretary for FE in Redelegation Order No. 00-002.04G issued on June 4, 2019.

² Prometheus Energy Group's blanket authorization to import and export LNG from and to Canada and Mexico by truck, granted in DOE/FE Order No. 4163 on March 12, 2018, extends through April 4, 2020.

LNG from various international sources by vessel, meets the section 3(c) criteria and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of not greater than two years.
