## Categorical Exclusion Determination Form

Submit by E-mail

Proposed Action Title: (0473-1554) Varentec Inc. - Compact Dynamic Phase Angle Regulators for Transmission Power Routing

Program or Field Office: Advanced Research Projects Agency - Energy

Location(s) (City/County/State): California, Georgia, Tennessee, and Wisconsin.

Proposed Action Description:

Funding will support development of Compact Dynamic Phase Angle Regulators (CD-PAR), a compact, low-cost power flow controller integrated with custom-wound transformers to control grid power flow, reducing the number of new transmission lines that will be required to meet increased renewable energy penetration.

ARPA-E has undertaken a review of the work to be performed under Phase I of the project, which consists of in-lab research and development and indoor industrial fabrication activities. ARPA-E has not undertaken a review of the work to be performed under Phase II of the project, which involves outdoor prototype field testing at utility sites operated by Southern Company that have yet to be identified.

Proposed work consists of (1) modeling, design, fabrication, and optimization of prototype CD-PAR units, (2) design and fabrication of 12 kV meshed AC network test bed and electrical transformers, and (3) prototype testing systems-level analysis of CD-PAR brassboard units in the 12 kV network test bed to validate CD-PAR performance. Project work will take place at Varentec Inc. (San Jose, CA), Georgia Tech University (Atlanta, GA), Electric Power Research Institute (Knoxville, TN), and Waukesha Electric Systems Inc. (Waukesha, WI).

Categorical Exclusion(s) Applied:

A9 - Information gathering, analysis, and dissemination

B3.6 - Small-scale research and development, laboratory operations, and pilot projects

For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, including the full text of each categorical exclusion, see Subpart D of [10 CFR Part 1021](#).

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D.

To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of the proposed action, as NEPA Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action fits within the specified class(es) of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically excluded from further NEPA review.

NEPA Compliance Officer:

Date Determined: 11/30/2011
