CFO Mission

The Office of the Chief Financial Officer (CFO) assures the effective management and financial integrity of DOE programs, activities, and resources by developing, implementing, and monitoring Department-wide policies and systems in the areas of budget administration, program analysis and evaluation, finance and accounting, internal controls, corporate financial systems, cost analysis, and strategic planning.

Existing Services Provided by Small Business

Through the third quarter, CF has awarded 62% of its Procurement Base to Small Business, for a total of \$11.9M to Small Business.

Consulting and General Support Services:

- Finance & Accounting Support
- Administrative Support
- Market Analysis
- General Program & Project Management Support
- iManage Program Support
- Loan and Credit Program Support

Support for Independent Analytic Advice in the Following Areas:

- Assessing the impact of new energy technologies on DOE programs
- Performing risk and uncertainty analysis
- Providing analytical portfolio decision support

Upcoming FY 2010 Recovery and Non-Recovery Opportunities

We have a track record of encouraging small business participation whenever opportunities arise

FY2009 small business procurement opportunities have been satisfied, and no new major new small business procurement opportunities are planned for FY 2010

However, the execution of the American Reinvestment and Recovery Act (ARRA) will require additional resources for the OCFO in FY2010, though our requirements are not fully defined yet

We always welcome information on corporate capabilities!
