

Vehicle Technologies Program (EERE)

Name: Drew Ronneberg

Title: Supervisor – Fuels, Engines and Deployment

Office: Sample Office

E-Mail: drew.ronneberg@ee.doe.gov

Phone: 202-586-0205

Website: <http://www.eere.energy.gov/vehiclesandfuels/>

Office Overview

DOE Headquarters

Washington D.C.

Field Office

National Energy
Technology
Laboratory,
Morgantown WV

Program Mission

The Vehicle Technologies Program is developing more energy efficient and environmentally friendly highway transportation technologies that will enable America to use less petroleum. The long-term aim is to develop "leap frog" technologies that will provide Americans with greater freedom of mobility and energy security, while lowering costs and reducing impacts on the environment.

Opportunities in FY10

Funding Opportunities

VTP expects to have a broad area announcement for vehicles R&D in FY10. This announcement will be posted on our website, <http://www.eere.energy.gov/vehiclesandfuels/> under the financial opportunities section.
