Ex Parte Communications with Mark Medenwaldt, Caterpillar Global Mining LLC

Mr. Medenwaldt inquired, by emails on August 7 and 8, 2012, whether the proposed energy conservation standards rulemaking would affect above ground mobile mining equipment that would have distribution transformers onboard. In response, I sent to him, on August 9 and 14, 2012, the web links to the DOE web page for distribution transformers and referred him to regulations.gov for other comments thus far received about mining equipment.
