Section I

Department of Energy
Privacy Impact Assessment (PIA)

Name of Project: FitMaster
Bureau: Department of Energy
Project's Unique ID: FITPLUS
Date: August 6, 2008

A. CONTACT INFORMATION:

1) Who is the person completing this document?
   Name: George Scott
   Title: Senior Applications Software Engineer
   Organization: Science Applications International
   Address: P.O Box 4699, Building 1007, MS 7022
       Oak Ridge, TN. 37831-7022

2) Who is the system owner?
   Name: Carl Efird
   Title: Environmental Health & Safety
   Organization: Bechtel Jacobs Company LLC
   Address: P.O Box 4699, Building 1007, MS 7171
       Oak Ridge, TN. 37831-7171

3) Who is the system manager for this system or application?
   Name: David D. Newton
   Title: Applications Manager
   Organization: Bechtel Jacobs Company LLC
   Address: P.O Box 4699, Building 1007, MS 7022
       Oak Ridge, TN. 37831-7022

4) Who is the IT Security Manager who reviewed this document?
   Name: David Rose
   Title: Cyber Security & Compliance Manager
   Organization: Bechtel Jacobs Company LLC
   Address: P.O Box 4699, Building 1007, MS 7022
       Oak Ridge, TN. 37831-7022

5) Who is the Privacy Act Officer who reviewed this document?
   Name: Amy Rothrock
   Title: Privacy Act Officer
   Organization: Department of Energy/Oak Ridge Operations
   Address: 200 Administration Rd.
       Oak Ridge, TN. 37830
B. SYSTEM APPLICATION/GENERAL INFORMATION:

1) Does this system contain any information about individuals? Yes
   
a. Is this information identifiable to the individual? Yes
   
b. Is the information about individual members of the public? Yes
   
c. Is the information about DOE or contractor employees? Yes

2) What is the purpose of the system/application?
The FITPLUS application replaced FitMaster System (FITMAST) Designed to assist operators with accurate and efficient respirator fit testing in accordance with respiratory standards published in OSHA and guidelines provided by ANSI. The system also helps the managers with various data management functions which include maintaining reference data, reports, and archiving old data.

3) What legal authority authorizes the purchase or development of this system/application?
Department of Energy

C. DATA in the SYSTEM:

1) What categories of individuals are covered in the system?
Contractor and former contractor (public)

2) What are the sources of information in the system?
   
a. Is the source of the information from the individual or is it taken from another source?
   Data comes directly from individuals.
   
b. What Federal agencies are providing data for use in the system?
   None
   
c. What Tribal, State and local agencies are providing data for use in the system?
   None
   
d. From what other third party sources will data be collected?
   None
PIA – FitMaster, ETTP Business Systems

e. What information will be collected from the individual and the public?
This application collects (from employees) the following:
SSN.

3) Accuracy, Timeliness, and Reliability

a. How will data collected from sources other than DOE records be verified for accuracy?
Verified with individual when collected.

b. How will data be checked for completeness?
BJC applications require a complete set of data for processing purposes. Procedures and processes are in place to ensure the completeness of the data.

c. Is the data current? What steps or procedures are taken to ensure the data is current and not out-of-date?
Yes. SSN doesn’t change.

d. Are the data elements described in detail and documented?
Yes, in Users Manual

D. ATTRIBUTES OF THE DATA:

1) Is the use of the data both relevant and necessary to the purpose for which the system is being designed? Yes

2) Will the system derive new data or create previously unavailable data about an individual through aggregation from the information collected, and how will this be maintained and filed? No

3) Will the new data be placed in the individual’s record? N/A

4) Can the system make determinations about employees/public that would not be possible without the new data? N/A

5) How will the new data be verified for relevance and accuracy? N/A

6) If the data is being consolidated, what controls are in place to protect the data from unauthorized access or use? N/A

7) If processes are being consolidated, are the proper controls remaining in place to protect the data and prevent unauthorized access? N/A
8) How will data be retrieved? Does a personal identifier retrieve the data? If yes, explain and list the identifiers that will be used to retrieve information on the individual.
Data is retrieved by SSN through the application software user interface.

9) What kinds of reports can be produced on individuals?
Reports showing results of fit tests for respirators.

What will be the use of these reports?
To show the pass/fail of tests for respirator fits.

Who will have access to them?
Reports are available to functional staff as needed to perform their job.

10) What opportunities do individuals have to decline to provide information (e.g., where providing information is voluntary) or to consent only to particular uses of the information (other than required or authorized uses)?
Individuals are not required to provide their SSN. A bogus one can be fabricated for use.

E. Maintenance and Administrative Controls:

1) If the system is operated in more than one site, how will consistent use of the system and data be maintained in all sites?
The applications do not cross Accreditation Boundaries.

2) What are the retention periods of data in the system?
Data will be retained until the end of the contract, then turned over to DOE.

3) What are the procedures for disposition of the data at the end of the retention period? How long will the reports produced be kept? Where are the procedures documented?
Disposition procedures are to be determined. Reports are not retained.

4) Is the system using technologies in ways that DOE has not previously employed (e.g., monitoring software, Smart Cards, Caller-ID)? No

5) How does the use of this technology affect public/employee privacy? N/A

6) Will this system provide the capability to identify, locate, and monitor individuals?
No.

7) What kinds of information are collected as a function of the monitoring of individuals?
SSN, name, and fit test measurements.

8) What controls will be used to prevent unauthorized monitoring?  
No monitoring is possible outside of normal applications usage.

9) Under which Privacy Act system of records notice does the system operate? N/A

10) If the system is being modified, will the Privacy Act system of records notice require amendment or revision? N/A

F. Access to Data:

1) Who will have access to the data in the system? 
Access to data is controlled by the applications administrators for each application.

2) How is access to the data by a user determined? 
Access to data is approved by the application owners and granted by the application administrator on a need-to-know basis.

3) Will users have access to all data on the system or will the user’s access be restricted? 
User access is controlled by the system administrators by granting roles to individuals. Roles are restricted to see only the functionality/data required by that role.

4) What controls are in place to prevent the misuse (e.g., unauthorized browsing) of data by those having access? 
Application owners enforce separation of responsibilities to only allow access to functionality/data necessary to perform job functions.

5) Are contractors involved with the design and development of the system and will they be involved with the maintenance of the system? If yes, were Privacy Act contract clauses included in their contracts and other regulatory measures addressed? 
Yes, DOE Privacy Act clauses are included.

6) Do other systems share data or have access to the data in the system? If yes, explain. 
In the future, yes. Interfaces are being developed with the Medgate medical system.

7) Who will be responsible for protecting the privacy rights of the public and employees affected by the interface?
PIA – FitMaster, ETTP Business Systems

Any applications that process Privacy Act data are classified as “Protected” by the BJC Cyber Security Manager. Those applications then document and test the controls necessary to protect the interfaces/data.

8) Will other agencies share data or have access to the data in this system?
No.

9) How will the data be used by the other agency?
N/A.

10) Who is responsible for assuring proper use of the data?
N/A.
