Department of Energy

Privacy Act of 1974; Publication of Compilation of Systems of Records; Notice
DEPARTMENT OF ENERGY

Privacy Act of 1974; Publication of Compilation of Systems of Records

AGENCY: Department of Energy.

ACTION: Notice.

SUMMARY: As required by the Privacy Act of 1974, 5 U.S.C. 552a, and the Office of Management and Budget (OMB) Circular A–130, the Department of Energy (DOE or Department) is publishing its compilation of Privacy Act Systems of Records. This notice provides an accurate and complete text of the agency’s systems of records, and adopts many of the recommendations that were made to DOE in comments that were submitted concerning proposed amendments to the compilation published by DOE on May 16, 2001. In addition, this notice proposes to amend an existing system of records and establish two new systems of records.

DATES: The revised compilation of Privacy Act Systems of Records is effective June 30, 2003. The proposed amendment to an existing system of records and the establishment of the two new systems of records will become effective without further notice, on August 14, 2003, unless comments dictate otherwise.

ADDRESSES: Written comments should be directed to Abel Lopez, Director, Freedom of Information Act and Privacy Act Group, U.S. Department of Energy, ME–74, 1000 Independence Avenue, SW., Washington, DC 20585.

SUPPLEMENTARY INFORMATION:

I. Background

DOE published a proposed compilation of its Privacy Act systems of records on May 16, 2001, at 66 FR 27300. The notice provided an accurate and complete text of notices for the sixty systems of records established by DOE under the Privacy Act. Each system notice provided a description of the systems of records, identified the purpose and authority for collecting and maintaining the information, reflected administrative changes that had been made, identified the appropriate DOE locations, and incorporated all routine uses. In addition, the Federal Register notice proposed new routine uses for existing systems of records, deleted 10 systems of records, and established seven new systems of records.

A 30-day comment period was provided for the public to comment on the amendments to existing systems and proposed new systems. The comment discussion that refers to names of DOE offices is only relevant to the text of two systems of records. The names used are the names that existed at the time the comments were submitted, and not the current names of some of the offices. The Department received 13 internal comments and two public comments. An analysis of the comments and the response by the DOE are provided in this notice.

II. Discussion of Comments

Comment: The Department received several comments stating the text for DOE–31 “Firearms Qualifications Records” was omitted from the compilation.

Response: The comments were accurate. The text for this system has been incorporated with this notice.

Comment: Several comments were received requesting clarification of the “Notification Procedures” section of the Compilation of Privacy Act Systems of Records Notice. The commenters stated that it was not clear to whom Privacy Act requests should be directed for records maintained by various DOE Field sites that are maintained and operated by contractors.

Response: DOE agrees with the commenters and is revising the “Notification Procedures” section of the Compilation of Privacy Act Systems of Records Notice” to address these comments. Accordingly, the “Notification Procedures” section is revised to read as follows:

In accordance with the DOE regulation implementing the Privacy Act, title 10, Code of Federal Regulations, part 1008, a request by an individual to determine if a system of records contains information about him/her should be submitted to the Director, Headquarters Freedom of Information Act and Privacy Act Group, U.S. Department of Energy, or the Privacy Act Officer at the appropriate address identified above under “System Locations.” For records maintained by a Laboratory or Area Office, requests should be directed to the Privacy Act Officer at the Operations Office that has jurisdiction over that facility. The request should include the requester's complete name, time period for which records are sought, and the office location(s) where the requester believes the records are located.

In addition, we have created a new section in the “Compilation of Privacy Act Systems of Records” entitled “Table Correlating DOE Field Locations and their Offices.” This section will identify each Operations Office and the Laboratories and Area Offices under their respective jurisdiction. This will enable a requester to identify the appropriate Privacy Act Officer to whom a requester should submit a request for agency records maintained by a Laboratory or Area Office.

Comment: Another commenter stated that any reference to a Laboratory or a non-DOE office as a “System Location” should be deleted. The commenter stated that Management and Operating (M&O) contractors may maintain on behalf of DOE certain systems of records identified in their respective contracts with DOE. The commenter proposed that only the DOE offices should be referenced as a system location.

Response: DOE disagrees with this commenter. DOE has consulted with the Office of Management and Budget (OMB), the agency charged with providing guidance on the Privacy Act to other Federal agencies, and OMB has advised that agencies should identify all locations where the records are maintained. It is the goal of the agency to inform the public what records the agency maintains, where the records are maintained, to whom the records pertain, and the uses of the records. Therefore, the commenter’s suggestion is not adopted.

Comment: Comments also were received on the proposed amendments to DOE–1 “Grievance Records.” The commenter stated that, according to the notice, this system of records will maintain only grievance records subject
to the negotiated grievance process under DOE Order 3771.1 “Grievance Policy and Procedures.” However, DOE Order 3771.1 does not apply to employees who are members of a bargaining unit and who are covered by negotiated grievance procedures. These employees are specifically excluded from coverage under that particular DOE Order. The commenter further stated that if the intent is to maintain records pertaining specifically to employees covered under a negotiated grievance process, the system should not reference DOE Order 3771.1. Thus, the commenter stated that Albuquerque Operations Office should not be listed as a system location because Albuquerque employees are not members of a bargaining unit and, therefore, not covered by the negotiated grievance process.

Response: The Freedom of Information Act and Privacy Act Group consulted the System Manager for DOE–1 and was informed that the system was established to include records of employees in both Headquarters and in Field components who are covered by both negotiated grievance procedures, and the Administrative Grievance process under DOE Order 3771.1. The system will maintain records that are a part of a negotiated grievance process and/or a grievance that is a part of the administrative grievance process. For this reason, the purpose section for DOE–1 has been written with greater clarity to include records of employees that are subject to either the negotiated grievance process or DOE administrative grievance process under DOE Order 3771.1.

Comment: Comments were received concerning the type of records maintained in DOE–3 “Employee Concerns Program Records” and DOE–7 “Whistle Blower Investigations, Hearings and Appeals Records.” In the section entitled “Categories of Records in the System” of the systems of records, security documents are listed as a type of document maintained in the systems. The commenters stated security records should not be maintained in these systems but should be in DOE–43 “Personnel Security Clearance Files,” DOE–44 “Special Access Authorization for Categories of Classified Information,” or another appropriate system.

Response: The Freedom of Information Act and Privacy Act Group contacted the system managers for DOE–3 and DOE–7 and was informed that the records maintained in these systems are acquired from individuals who file informal and formal complaints. The Department does not obtain the records from an individual’s security file, but the individual may submit such records with his or her complaint. The records provided by individuals are used in the Department’s deliberative process. The Department is in compliance with section (e)(4)(C) of the Privacy Act andOMB’s guidance to agencies that when describing “Categories of Records” in the public notice, the notice should describe the type of information maintained in a system. Therefore, the commenter’s suggestion is not adopted.

Comment: The Department also received a comment on DOE–34 “Employee Assistance Program” (EAP) Records. The commenter suggested that the Albuquerque Operations Office, the Amarillo Area Office and the Kansas City Area Office should not be identified as locations for EAP records because these types of records are not maintained at those locations. In addition, the commenter pointed out that the Albuquerque Operations Office only maintains statistical information on the use of EAP records. DOE–34.

Response: The system manager for this system of records informed DOE’s Freedom of Information Act and Privacy Act Group that service providers have contracts with the Albuquerque Operations Office, the Amarillo Area Office, and the Kansas City Area Office. All DOE sites have service providers that provide counseling services for their employees. The records are maintained by the service provider for the Department and statistical information is sent to Albuquerque. However, the records are maintained at the locations listed in the notice. Therefore, the commenter’s suggestion is not adopted.

Comment: One commenter noted that DOE offices that are part of the National Nuclear Security Administration (NNSA) should be referenced as such. When a particular system of records references only DOE and makes no mention of the NNSA, it could lead to confusion because it may be interpreted that the system only pertains to those offices or programs under DOE and not any function performed by the NNSA.

Response: DOE’s Office of the Assistant General Counsel for General Law informed the Freedom of Information Act and Privacy Act Group that it is the policy of the Department to specifically identify NNSA in all appropriate notices and Departmental Orders. Therefore, the comment has been adopted and all of the systems of records have been revised in accordance with the comment.

Comment: The Department of Labor (DOL) expressed concern that DOE has added routine uses to a number of its systems of records so as to authorize DOE to disclose information from these systems of records to the Department of Health and Human Services (HHS), no similar routine use was added to authorize disclosure of this information to DOL. DOE stated that it also needs these types of information to administer and make determinations on claims filed under the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA). In addition, DOE stated that there is no valid reason for DOE to provide information to HHS and not provide the same information to DOL when DOE is the agency that will issue actual determinations on claims made to DOE under EEOICPA.

DOL provided language for DOE to consider to modify the routine use language for those systems where DOE established a routine use authorizing disclosure to HHS. In addition, DOE suggested that DOE amend its systems notices to add a separate specific routine use that authorizes disclosure to DOL of the same information authorized for disclosure to HHS.

Response: The system manager for DOE–10 “Worker Advocacy Records” was contacted and agreed that DOL should be provided with the information it needs to administer its EEOICPA obligations. However, the system manager stated that a routine use already exists that allows disclosure to DOL. The routine use states that, “A record from this system may be disclosed as a routine use to the personnel, contractors, grantees, and cooperative agreement holders of the Federal agency or agencies and its components, designated by the President to implement the Federal compensation program established by the EEOICPA.” However, DOE has no objection to the language that DOL suggested. The routine use language has been modified accordingly.

Many of the comments submitted to DOE requested administrative changes to various systems. Appropriate administrative changes have been noted and adopted.

III. Proposed Amendment to an Existing System of Records

DOE–54 Investigative Files of the Inspector General

This notice proposes to amend DOE–54 “Investigative Files of the Inspector General” by establishing a new routine use to comply with the recently enacted Homeland Security Act of 2002.

Specifically, section 812(a) of the Homeland Security Act of 2002 amended the Inspector General Act of
1978 (5 U.S.C. App.) and provides, in part:

To ensure the proper exercise of the law enforcement powers authorized by this subsection, the Office of Inspector General described under paragraph (3) shall, not later than 180 days after the date of enactment of this subsection, collectively enter into a memorandum of understanding to establish an external review process for ensuring that adequate internal safeguards and management procedures continue to exist within each office and within any office that later receives an authorization under paragraph (2). The review process shall be established in consultation with the Attorney General, who shall be provided with a copy of the memorandum of understanding that establishes the review process. Under the review process, the exercise of the law enforcement powers by each Office of Inspector General shall be reviewed periodically by another Office of Inspector General or by a committee of Inspectors General. The results of each review shall be communicated in writing to the applicable Inspector General and to the Attorney General.

The additional routine use would allow the disclosure of information to authorized officials within Offices of Inspectors General listed in the Inspector General Act of 1978, the Department of Justice, the Federal Bureau of Investigation, and the U.S. Marshals Service, as necessary, for the purpose of conducting qualitative assessment reviews of the Office of Inspector General’s investigative operations to ensure that the adequate internal safeguards and management procedures are maintained. The proposed routine use is compatible with the purpose for which the information is being collected and maintained.

IV. Proposed New Systems of Records

DOE–16 Federal Employee Subsidy Program Records

The Department proposes to establish a new system of records entitled DOE–16 “Federal Employee Subsidy Program Records.” The system will cover all records that pertain to the DOE Child Care Tuition Assistance Program and the Transit Subsidy Program (also referred to as the Commuter Choice) at all DOE locations. The authorities for the Child Care Tuition Assistance Program are Public Law 106–58, section 643, and Executive Order 9397. The authorities for the Transit Subsidy Program are the Transportation Equity Act of 1998, Executive Order 13150, and 26 CFR parts 1 and 602.

The information in this system will pertain to DOE Federal employees and will be used by the Department to determine if an individual is eligible for benefits, to administer the programs, to make payments to child care providers or providers of transportation and/or parking services, and/or to reimburse employees for transportation and/or parking expenses.

The records that will be maintained in the proposed DOE–16 are application forms, earnings statements, income tax returns, and vouchers of payments distributed. The records will be stored as paper records and electronic data and may be retrieved by the name of the applicant or other personal identifier, such as a social security number. The Department does not believe the maintenance of this system will have any substantial effect on privacy and other rights of individuals. The system will simplify the collection of information required to efficiently monitor and approve parking travel.

V. Comment Procedures

As provided by 5 U.S.C. 552a (e)(11), interested persons are invited to submit written data, views or comments related to the proposed amendment to DOE–54 and the two proposed new systems of records to the U.S. Department of Energy, Freedom of Information Act and Privacy Act Group, ME–74, 1000 Independence Avenue, SW., Washington, DC 20585. “Comments” should be written on the outside of the envelope and on the documents submitted to DOE with the designation “Department of Energy Privacy Act Systems of Records Proposals.” These comments and all other relevant information will be considered by DOE before the proposed amendment and proposed new systems of records are adopted in their final form.

If DOE receives no substantial comments adverse to or critical of the amendment of an existing system of records and two new systems of records DOE has proposed, DOE will begin to operate the systems as proposed upon the expiration of the 40-day advance notice period for informing Congress and OMB of the amendment and proposed new systems as required by OMB Circular A–130.

The Department is submitting to Congress the reports on the amended system of records and the new systems as required by OMB Circular A–130, concurrently with publication of this Federal Register notice.

Set forth below is the compilation of DOE’s Privacy Act Systems of Records that includes a Table of Contents. Correlation of Offices and the text of the individual systems of records.
