Subject: FW: Signed Memo to Programs re: Request for NEPA Planning Summaries

Mary,

Here is the NA-20 input for the 2011 NEPA Planning Summaries tasking. Our input comes from our NA-21 program office. We'd like to note that NA-26 also has upcoming NEPA activities, but as they are based at the Savannah River Site, they were included in the SRS submission since it is a joint NNSA-EM project.

NA-20: 2011 NEPA Planning Documentation

The Office of Global Threat Reduction (NA-21) is currently developing a Supplement Analysis (DOE/EIS-0380-SA-02SA) to the Los Alamos National Laboratory's (LANL) Site-Wide Environmental Impact Statement (SWEIS) for the Transport and Storage of High-Activity Sealed Sources from Uruguay and Other Locations. This supplement analysis (SA) was prepared to assess whether there are substantial changes, or significant new circumstances or information, relevant to environmental concerns associated with continuation of the National Nuclear Security Administration's activities to recover and manage high-activity beta/gamma sealed sources relative to analysis in the LANL SWEIS (DOE 2008) and related National Environmental Policy Act (NEPA) reviews. This SA includes one activity that was not addressed in the LANL SWEIS (i.e., transportation of sealed sources recovered from foreign countries to the United States through the global commons via commercial cargo aircraft) and examines the role of commercial facilities in more detail than was included in the LANL SWEIS. NA-21 began drafting the document in 2010 and expects the SA to be finalized in early 2011. Costs to finish the NEPA SA in 2011 are expected to be about \$40,000.00.

Please let me know if you have any questions or concerns with our submission.

Best,

Jessica Raber

Subject: RE: Signed Memo to Programs re: Request for NEPA Planning Summaries

Mary –

Sorry for not mentioning it in my previous email. We do not have any additional EAs coming up in the next 12 months or EISs in the next 24 – so our only plan is for the one Supplement Analysis described below.

Best,
Jessica
