SUPPLEMENTARY INFORMATION:

I. Background

The Hanford Site is located in southeastern Washington State along the Columbia River, and is approximately 586 square miles in size. Hanford's mission included defense-related nuclear research, development, and weapons production activities from the early 1940s to approximately 1989. During that period, Hanford operated a plutonium production complex with nine nuclear reactors and associated

processing facilities. These activities created a wide variety of chemical and radioactive wastes. Hanford's mission now is focused on the cleanup of those wastes and ultimate closure of Hanford.

In support of Hanford's cleanup mission DOE, with Ecology as a cooperating agency, prepared the Draft TC & WM EIS in accordance with the Council on Environmental Quality's National Environmental Policy Act (NEPA) Implementing Regulations at 40 CFR Parts 1500-1508 and the DOE NEPA Implementing Procedures at 10 CFR Part 1021. The Environmental Protection Agency issued a Notice of Availability of this Draft TC & WM EIS on October 30, 2009 (74 FR 56194), thereby initiating the public comment period for the Draft EIS.

II. Public Hearings

During an open house, the first hour of each hearing, participants may register to speak and meet informally with representatives from DOE and Ecology. During the formal portion of each hearing, DOE and Ecology will make short opening presentations on the Draft EIS and describe the format for the hearing. The remaining time will be available for the public to comment. The Seattle meeting announced previously (75 FR 1048) for February 11, 2010, has been moved to March 8, 2010. Three additional meetings have also been scheduled and they are provided as follows:

- La Grande, OR 97850, February 22, 2010, Eastern Oregon University, Hoke Union Building, 6 to 10 p.m.;
- Spokane, WA 99206, February 23, 2010, Red Lion Hotel at the Park, 303 W. North River Drive, Spokane, WA 99206, 509-777-6393, 6 to 10 p.m.;
- Eugene, OR 97401, March 1, 2010, Hilton Eugene and Conference Center, 66 East 6th Avenue, Eugene, OR 97401, 541-342-2000, 6 to 10 p.m.;
- Seattle, WA 98109, Rescheduled from previous date of Feb 11, March 8, 2010, Seattle Center, 305 Harrison Street, 206-684-7200, 6 to 10 p.m.

DOE will consider and respond to all oral and written comments received at the public hearings or written comments postmarked by March 19, 2010, in preparing the Final EIS. Late comments will be considered to the extent practicable.

III. Next Steps

DOE intends to issue the Final Tank Closure and Waste Management EIS by March 2011. DOE will issue a Record of Decision no sooner than 30 days after

the Environmental Protection Agency publishes a Notice of Availability of the Final EIS in the **Federal Register**.

Signed in Washington, DC, January 19, 2010.

William M. Levitan,

Director, Office of Environmental Compliance, Office of Environmental Management.

Title: GreenChill Advanced Refrigeration Partnership.

ICR numbers: EPA ICR No. 2349.01, OMB Control No. 2060-New.

ICR Status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on

the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The GreenChill Advanced Refrigeration Partnership (hereafter referred to as GreenChill Partnership or GreenChill) is an EPA cooperative alliance with the supermarket industry to promote advanced refrigeration technologies, strategies, and practices that reduce emissions of ozone-depleting and greenhouse gas refrigerants. A food retailer's decision to participate in the GreenChill Partnership is completely voluntary. After joining GreenChill by submitting a signed "Partnership Agreement," food retailers are asked to submit a "Stocks and Emissions Report" to an independent third party. The form requires partners to provide corporate-wide, aggregated data on the stocks and emissions of all refrigerants used in commercial refrigeration and air conditioning appliances. The independent third party summarizes the information submitted by the food retailers, removes any identifying information, and sends a summary of the information to GreenChill. Partners are then asked to submit a "Corporate Refrigerant Management Plan" with their emissions reductions goals for the next year, along with a brief description of their plan to meet that goal (such as retrofitting old equipment, *etc.*). These two forms are necessary for GreenChill to track annual supermarket refrigerant emissions rates, allowing GreenChill and its food retail partners to benchmark partners' progress on reducing emissions. The partner emissions data is also the basis for the achievement awards that GreenChill gives out to its partners.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 18.1 hours for the first year and 11 hours per year for the second and third years per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to
