Amendment to
Order Authorizing Electricity Exports to Canada

Order No. EA-260-D

December 18, 2009
CP Energy Marketing (US) Inc.

Electricity Export Authorization Amendment

Order No. EA-260-D

I. BACKGROUND

Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(c) of the Federal Power Act (FPA) (16 U.S.C. 824a(c))

On December 16, 2009, EPCOR notified DOE that, effective July 9, 2009, it changed its legal name to CP Energy Marketing (US) Inc. (CP Energy Marketing) and requested that it be authorized to export under its new name.

II. FINDING AND DECISION

DOE finds that the action requested by CP Energy Marketing (US) Inc. would have no effect on DOE’s electric reliability determinations contained in Docket No. EA-260-C.

DOE has determined that this action is among those classes of actions not normally requiring preparation of an environmental assessment or an environmental impact statement and, therefore, is eligible for categorical exclusion under paragraph A13 of Appendix A to Subpart D of Part 1021 of DOE’s National Environmental Policy Act Implementing Procedures (10 CFR Part 1021). Specifically, this categorical exclusion is provided for administrative, organization, or procedural orders. Documentation of the use of this categorical exclusion has been placed in this Docket.

IV. ORDER

Based on the above findings, the electricity export authorization issued to EPCOR on April 8, 2009, in Order No. EA-260-C, is hereby amended by changing the name of the authorized exporter to CP Energy Marketing (US) Inc.

All other terms and conditions of Order No. EA-260-C remain unchanged.
