“List of Covered Electric Utilities” under the Public Utility Regulatory Policies Act of 1978 (PURPA)

DECEMBER 2009

Background
Under Title I, Sec. 102(c) of the Public Utility Regulatory Policies Act of 1978 (PURPA), the U.S. Department of Energy (DOE) is required to publish a list identifying each electric utility that Title I applies to.

Among other things, Subtitle B of PURPA Title I requires each "State regulatory (with respect to each electric utility for which it has ratemaking authority) and each non-[state] regulated electric utility" to consider and then make a determination on whether to adopt by Congressionally-specified dates certain word-for-word regulatory standards that Congress has listed in the original 1978 PURPA, as well as in additions to PURPA contained in the Energy Policy Acts of 1992 and 2005, and the Energy Independence and Security Act of 2007.

This "must-consider" requirement of PURPA Title I, Subtitle B should NOT be confused with the PURPA Title II, Sec. 210 requirement for mandatory purchase by electric utilities of cogeneration and small power production, which itself was repealed under certain conditions by Sec. 1253 of the Energy Policy Act of 2005.

The reader may wish to consult PURPA as amended, as well as appropriate legal counsel, for further detail if warranted.

The following list is an updated version of DOE's 2008 list that can be used to determine an electric utility's coverage under Subtitle B of Title I:
“List of Covered Electric Utilities” under the Public Utility Regulatory Policies Act of 1978 (PURPA)

DECEMBER 2009

List
All electric utilities listed below had RETAIL electric energy sales, for purposes other than resale, in excess of 500 million kilowatt-hours in both 2006 and 2007, except where noted:

** = sales exceeded 500 million kilowatt-hours in 2006 only
* = sales exceeded 500 million kilowatt-hours in 2007 only

Electric utilities may be listed under multiple states because the PURPA threshold requirement is by company (and thus each state that the company operates in will have to comply with the requirements).

Pursuant to Title I of PURPA (§17, 16 U.S.C. §2602), the Tennessee Valley Authority (TVA) is deemed to be the state regulatory authority for those electric utilities over which it has ratemaking authority. This is noted on the list as:

*** = electric utilities for which TVA is the state regulatory authority

Please note that the following list is based on DOE Energy Information Administration (EIA) 2006 and 2007 Form 861 data [http://www.eia.doe.gov/cneaf/electricity/page/eia861.html](http://www.eia.doe.gov/cneaf/electricity/page/eia861.html). This is the latest data available from EIA; data from 2008 has not yet been released. The following list is also based on information gathered from state commission web sites, the Tennessee Valley Authority, and correspondence with state commission staff as needed.
